This book is a must read for anyone considering the first job or for an established professional making a move due to layoff or career change. It will guide the entry level individual on how to

choose a career path, networking and interviewing. I found it to be a very positive resource when considering a change in my career after almost 40 years.

I thoroughly enjoyed reading New Directions! As a young professional in the early stages of my career, I found the content helpful and insightful. I particularly enjoyed the personal stories the author skillfully layered throughout the book.

"New Directions" gives the reader a clear prospective of the new age of careers and how to approach the vast challenges in today $\tilde{A}f\hat{A}\phi\tilde{A}$ \hat{a} $\neg\tilde{A}$ $\hat{a}_{,\phi}cs$ market. It $\tilde{A}f\hat{A}\phi\tilde{A}$ \hat{a} $\neg\tilde{A}$ $\hat{a}_{,\phi}cs$ a great guide for everyone working today; whether looking for a new job/career or not. Provides valuable insights.

We are representing Jim Ward and find that his experience counseling job applicants is top notch. You've got a job, you're happy and, maybe, you're even famous. You've got it made, right? After forty years at Men's Warehouse and countless television commercials, George Zimmer was the company's public face. But, then the unthinkable happened. Zimmer was fired and even stripped of his health insurance. These and other examples in New Directions, help the reader see how to "recycle" him or herself in work and in life. An easy, insightful read, with marvelous quotations starting each chapter. One big takeaway: Ward explains why it is a mistake to circulate your resume widely when you are already employed. A perfect gift for the college grad, too.
