Customer Reviews

I have this friend that grew up with this crazy kudos to Bruce Lee. He recommended this book to me after reading it in one day. I bought the book and wasn't disappointed, although this friend really was "high" from this book ;) Bruce Lee - The Legend's Impact on Race, Genre, Chinese Cinema and the Film Industry was written in a personal point of view with an extensive research of what made this legend what he was (and still is). In addition, there is a real cultural relevance that influenced and also made Bruce so signal. Highly recommended !

The author has done a remarkable work in covering Bruce's Lee biography, providing enough information to satisfy a historical curiosity while writing in style that will satisfy anyone who like to read a good story. Each chapter guides the reader through Bruce's Lee journey from a different perspective, highlights various aspects of his life and includes an analysis of the subject's personality. A must read book for those who are genuinely intrigued by the legend that Bruce Lee undoubtedly is, and for those who wish to expand their perspective and knowledge on martial arts and the history of film industry.
