Customer Reviews

Yes, such a beautiful title ... a great example of what poetry -- five words can do. the moon and buddhahood all they can do to prepare us for rain ... thank to the moon and KBDaniel Ladinsky a bestselling Penguin author

This book is so incredibly written. So many beautiful and inspiring words. I've never witnessed someone open up their soul to the world like this. I have re-read it over and over and will continue to do so. When my daughter comes into this world and is old enough to read, this is the book I will read from.

This is honestly the most amazing book. I ordered it and as soon as I opened the package I read it from front to back in one sitting. It brought me to tears several times and I will be reading it again. (I only just finished reading it minutes ago) It is extremely important for young women to hear these

words. When this author releases something else I will purchase it immediately.

Skin & Sun is one the most powerful and inspiring pieces of work I've come across in a very long time. Each poem resonates with the core your being, often causing a wide array of emotions. Thank you for sharing your heart and soul with the world. May Allah bless you always.

I read this during my lunch hour. This book will be something I will read again and again and journal on again and again. I can't wait to share these lessons and healthy habits to my daughter and give her this book as well. Things I was never able to put into functioning words were written.

I was brought to tears through these heart touching words... But I also gained so much hope. I was reminded about Allah (swt) and his mercy. Now I know I will be alright.

I bought it a few minutes ago and now I am upset that I am done.. Truly enjoyed this book.. I am a man but if God blesses me with a wife and daughter.. I will share this with them

Key Ballah is amazing! I need to re-read this book ASAP.
