## Customer Reviews

Hi, I'm James Storey, and I am the founder and owner of JJS Publishing, Inc. and JamesJo

Store. I am an entrepreneur, musician, and internet marketer, and I also have passions for business relations and musicology. Before realizing my dream of becoming an entrepreneur, I worked under the CEO of a major music not-for-profit company. Realizing that having a boss was not how I wanted to spend the rest of my life, I set out on my dreams of having my own business; where I work my own hours and pursue what I'm passionate about- business. I graduated from Indiana State University with a Bachelor's Degree in Music Business, which is when I realized how passionate I was about the subject. I am currently looking into getting my MBA from Indiana University's Kelley School of Business. I have advised multiple people on job searching, and investing and finance, and I look to do more in the future as well. My other main passion is music. I've helped musicians in their studies of Music Theory and Music History, as well as some Saxophone Performance. I've played in numerous solo recitals, and a few concertos as well with some very talented orchestra. My interests are broad, and vary from music to business and even technology. My hope is to help as many people as possible who are interested in a variety of these genres by releasing as much information as I can.

An excellent book - conversational, easy and straight to the point. James in this book has outlined all the fundamentals needed in order to prepare ourselves for any interview. As I read through, I feel that I was being coached by the author personally. He first explains about the situation, then asks questions (common and the tricky ones) regarding yourself, your work ethic and your background, etc. But he doesn't just leave you there. He also provides sample responses that you may emulate should you face trouble in answering them. A highly recommended book for those who would like to master the art of the interview.

This is a great book. It talks about everything you need to know to perform very well in a job interview. I am going to start looking for a job next week, and with this book, I feel pretty confident about going to the interviews when they call me. It's not easy, you still have to practice, be confident and prepare yourself before. But this book sure helps a lot during that process. One thing I really liked about the book is that it shows you what are the most common questions that they'll probably ask you in every interview, and also gives you an example of how you can answer those questions in order to give a very good impression to the employer.

gave some really great interview tips I also liked how he answered the typical interview questions with real examples and then explained why the answer was appropriate. very easy to adapt it to my

situation and experiences

This is the most unsophisticated interview prep book I've seen. This should be rated for 7-15 year olds.

Very interesting points were presented. I liked the way various questions that were used in an interview were explained. I've kept this book as a referral for future use.

Excellent resource to plan for interview questions.

I imagine that the main thing before a job interview is being prepared. This book will help you make sense of how and what to do in this area. What I cherished about this book, was that it shows you to accomplish more than simply play to your qualities. Choc-full of useful information for someone who is in dire need of finding a new job. It will empower your thoughts and will learn the proper attack to questions raised by interviewee in short this book help to will increased your self confidence. Overall I think this book will raise the effectiveness of a person's job obtaining toolkit. highly suggested read.
