Customer Reviews

Great book packed with a ton of valuable information. All the chapters are super useful and not wasting your time with pointless information. I really liked tips on standing out by not standing out, or how to write a resume when you are lack of work experience. This guide goes deeper in some smaller details, like what font to use, bolding, italics etc., not using I or ME words and a lot of more. In the end it explains about cover letters, when to and how to write them. After reading this book there seriously aren't things that I wouldn't know about how to write a resume. Great Guide!
