# Milady's Aesthetician Series: Lasers And Light Therapy

## Synopsis

Lasers and Light Therapy is the first of its kind, offering a unique approach into the science and technology of laser and light systems. The reader will be exposed to all aspects of this specialized field whether one is working in a medical spa, day spa, or medical clinic. This book is designed to address areas of hair removal and facial / body rejuvenation from a beginning conceptual level into practical hands-on application. Detailed information of treatment protocols is explored starting with the initial consultation and skin care, to the selection of the appropriate cosmetic device, to the delivery of the laser/light technology. The management of the client's goals and maximization of each treatment's outcome is also emphasized for the reader. As one gains knowledge of this exciting new specialty, the selection and acquisition of the appropriate cosmetic device is also thoroughly examined. Business management and marketing strategies are provided to guide the reader into creating an exciting, revenue generating opportunity.

## Customer Reviews

available

Pamela Hill, RN is Chief Executive Officer and president of Facial Aesthetics, the Pamela Hill Institute, and Pamela Hill Skin Care.

Returned, information is minimal

Good information, but wish it had more info on technique for handling the laser during different procedures. Certainly helpful, not sure it's worth the \$40+ I paid for it.

Very informative and easy to understand book! Saved my test scores more than once!

It's not aesthetic enough.....it's more from a medical perspective

it was just what i expected

Returned book it did not offer any more information then my text book from class. So returning.  
Thanks

Good price!
