Customer Reviews

I have had several Bible dictionaries and concordances before, but this one is my favorite. It has many more words than some others do, and it is very clearly written so you understand what you are reading. It's not only a good dictionary and concordance, but it's also reasonably priced (which is a big plus for me.)

Great tool to use for studying the bible! I love how it is a mix of both dictionary and concordance. You can know what it is talking about and know where else you can find the word to see how it is used in another context. I have wanted a bible dictionary for a long time and I do NOT regret getting this one. I recommend it to anyone wanting to study the bible.

The Bible Dictionary & Concordance is a very useful book to have for anyone who is studying the Bible with any degree of seriousness. While it isn't as in-depth as a Strong's Exhaustive Concordance, it does serve as both a good dictionary and concordance in one manageable volume. I would recommend this Bible Dictionary & Concordance as a good edition to anyone's reference collection.

Helpful, but not what I expected. Gave it three stars because it is helpful enough that I cannot stay I don't like it, just not really that useful to me. Not really a very good concordance and the dictionary is very limited--mostly Biblical names, not topics. Have since purchased Vines Complete Expository Dictionary, which is everything it is cracked up to be and look for it to be a real help in my Bible study.

Although not as detailed as some other Bible Concordances, it is excellent for a person just beginning to study the Bible. The print is large and easy to read and the words that are included give adequate definitions/explanations. The book is well made and, as with most of my other .com purchases, it arrived before the estimated delivery date in excellent condition!

This book helps me to understanding certain meaning, description of the certain people and words..

What I didn't like about this is it's advertised as a concordance which it is not. It is a dictionary and it helps me find books and verses a concordance translates English to Hebrew which this did not. Description grossly misleading. Would not have purchased otherwise.

Great reference tool
