# Duplicities: Imaginations Trilogy

## Synopsis

The last city of men has changed. Only those who remember yesterday can see it. There is tension in the air and violence in the corners you aren't supposed to notice. But Gwyn, a young girl in the orchard community, has a different problem. Her learned memories seem to be gone, even the ones that make her who she is. She wakes every morning, startled by the man next to her and the shack of a house they live in. Even the ordinariness of her clothing seems out of place. There is a thirst for adventure lingering in her throat and hunger for revenge she cannot place, eating away at her stomach. And just when she thinks she has it all figured out, everything changes. A pair of green eyes find her on the train. A pair of green eyes she knows from somewhere.

## Customer Reviews

This book killed me! I ended book #1 on such a high, and I did not expect book #2 to take off in this new direction and throw in so many plot twists. I was shocked but I loved it. I couldn't read it fast enough. I have only one complaint about these 2 books - why can't the girl just marry them all?!

We're already told there is a shortage of women and children, and too many men. The book has described a couple other non-traditional pairings as acceptable. So I'm just frustrated with books like this that the girl always has to pick. Just once, I'd love to read a love triangle where she gets both men in the end. Or all 3. It doesn't have to get dirty; it can stay PG rated. But make them all live happily ever after for once, please!!!!

The premise of this book was enjoyable and I found it interesting enough to keep reading. There were so many creative ideas and plot points introduced and I found it disappointing when the author didn't further explore them and instead focused on the love triangle of Gwyn, the protagonist. This triangle actually even becomes a square during this second book, which is kind of ridiculous. The reason I find this annoying is not because I don't expect this sort of dynamic in YA literature (sometimes it's almost weird when it doesn't happen) but because the author didn't give me enough of a reason to love Gwyn beyond a pretty face, much less for three very sensible and otherwise intelligent men to love her. I feel like she is entirely too flaky in the first book and only barely redeems herself in the second, strangely through her friendship with Nan and her own realization that she was stupid to believe she was in love with three men. That is as far as the love story goes. As a protagonist in general, she is also sometimes flaky in the beginning and then becomes strangely murderous instead of wanting to make real change. It felt like she was a flimsy heroine who settled for making her own personal world a better place after giving up on fixing the whole world she only kind of wanted to fix in the first place. I would rather have read a story from Nan's perspective. Also, I felt like the whole alien involvement thing wasn't sufficiently explained. There was so much left unresolved and if the author was going to make you care or be curious about so many other aspects of their society, why would she then just end it with their semi-uncertain happy ending? It didn't really make me want to explore any more by Tara Brown.

Another Fantastic book by Tara Brown (A E Watson). She never ceases to amaze me and my imagination! I have loved Taras writing and stories since the first book I read by her!! definitely recommend that you read Imaginations which is the 1st book in the Series. So your taken within this book to a new world full of horrible circumstances and choices, but also amazing at the same time. The characters were fantastic, all the emotions that call for a great read are present. Gwyn, a girl who has never had the freedom of choice for her own life, the people she loves in constant danger and the world is in turmoil. Yet with the help of her friends Gwyn learns what is to be like the rest, she learns what it is to be human. She sees the world for what it is and fights for what she believes

in. An amazing and content end to a an amazing Trilogy finished in only 2 books! I was left happy and satisfied, but man the journey until that point was excruciating! My emotions were hijacked and I laughed, I cried, I was angry, I was hopeful and I was ultimately satisfied. Thank you Tara for another Fantastic Book!

Well written and edited, ending with a strong hope for the future built upon the wrongs of the past to make things right again. Just like 'Imaginations' is a very good book; I'm starting to notice a trend. Tara Brown is an amazing author, and I aspire to being just as good when I grow up (I'm in my 30's haha!!). Onto the next amazing world this fabulous writer has written!

The first book in this series (Imaginations) was really good and the entire premise was so interesting and different! I have no idea what happened between that book and this one. It was so confusing and all over the place. So much going on that I literally skipped pages to just end my misery. I am a huge fan of Tara Brown's writing, and I absolutely adored her Born series (probably her best work in my opinion), but this was just so disappointing. I can't stress enough how absolutely scattered everything was and I feel like the whole point of the series was lost about a chapter into this sequel. Too bad. I guess all her books can't be winners!

Wonderful book about an apocalyptic World And a girls complicated love. Different on a normal end of world kinda life and how to rebuild the civilization back. The main character has returned to the last city to help destroy it. But ends up in some trouble herself . And needs help from unlikely people and loses some hope, As well as lives along with regaining life.

Wonderful ending to this 2 book series. There is a lot that happens in this book and so many competing emotions for our main characters. What I enjoyed most was the enduring bond between Gwynn and Lyle. Even when it seemed that they might not be able to be together they still supported the other unconditionally. My only complaint is that it could have used a couple more chapters to allow me to be a part of how their lives move forward, but it in no way detracted from my love of the book. Highly recommend this series!!

I'm absolutely in love with Tara Brown's books and one again she delivered. This series left you wanting more at every turn of the page, making it impossible to put down. If you want adventure,

romance, mystery, and intrigue look no father, these books have it all. You'll fall in love with the characters from the start and go through every new wonder, heartache, loss, and so much more with all of them. I don't want to give any of the book away so I'll just say these books are about "What you see, isn't what you always get," sometimes you have to look beyond.
