Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and

science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.

Having a big awkward folded paper map is not convenient to use on a street corner, but OK to peruse back in my room. I was staying in a remote area of the city (Barra Beach), so it was helpful to have this street map that covers a majority of the metropolitan area. The laminated city maps, while more convenient to use, didn't extend past downtown and the more popular beaches.

Good material - waxy, hard to rip, waterproof (all good to have in Brazil) but also difficult to write on. Like any map, not extremely intuitive to re-fold once its open. Very clear with street names and landmarks, however, which came in very handy when using buses and cabs driven by Portuguese-only speaking natives.

The map was in Portuguese. I just went back and read the description (which is in English) and it never mentioned it. I'm sure someone from Rio who bought this map would love it.

What a crappy map, doesn't show where all the Olympic venues are in city. Shows maybe a 1/3 of city. Useless, wish I wouldn't of purchased.

This map was useless and only covered a small area of Rio

Good quality map. Could be folded repeatedly without tearing.

good quality
