International Taxation In America For The Entrepreneur For The International Taxation For The Business Owner And Foreign Investor: Updated May 2017

Synopsis

I know your time is valuable; so I made the book easy to read in a two hours. I also created an audiobook for those that find themselves stuck in traffic. I updated the book in January 2017. My book is ideal for the European investing or moving to the U.S. and for the American with either an e-commerce or international business. Importers have discovered a little-known change in the tax law allowing big tax savings. When you are reading "International Taxation in America for the Entrepreneur," you will learn little-known tax laws that have helped Big Business eliminate their taxes. Easy to read and understand with a blueprint to solving the multinational tax challenges that your business faces. You will experience chapter after chapter of time-tested practical tips, the techniques and the innovative strategies that have helped so many companies to overcome the international tax challenges that hold back their growth and income potential. For the business owner, International Taxation in America for the Entrepreneur is tax jargon free. You quickly learn how to save taxes and protect assets. The Entrepreneur Edition is an easy two-hour read. You will learn how to create wealth while saving taxes. Recently updated for five new IRS designed tax plans designed to save you taxes. Today's entrepreneurs are finding cross border business planning is easier than ever before. The cross-border business and the multinational family are using onshore (Nevada) and "foreign trusts" for tax planning, inheritance planning, and asset protection. Innovative tax ideas such as the tax advantages of an offshore cloud computer system are explained in Chapter One. Dooley is a seasoned international tax specialist. With a graduate degree in taxation, he is a leader in innovative international tax planning. He is a lecturer for the California Society of CPAs on international tax law. Customer Reviews

I got this book several months ago and just occasionally I've been browsing through it, but now that I need it most I've read it all and I can tell that I will get back to it several more times: highly informative and educational

I bought the Kindle version to compliment the International Taxation in America which the author was kind enough to post three chapters free on Kindle back in 2012. The subject matter in these books is very technical and is certainly not for the novice.

Followed up by meeting with Brian Dooley. Expert in personal and business tax.

Brian Dooley's new book, "International Tax Planning in America for the Entrepreneur" is a must-read for international tax experts. Brian is a renowned expert on the international tax issues faced by businesses and is a "fountain of information."

This book makes sense for any business owner who is operating or considering operating in multiple countries. Brian Dooley makes sure businesses don't pay more taxes than they need to. He is truly an expert in his field.

Excellent

Brian gives a very detailed view of this complex foreign tax area. He divides the book well so it can easily be followed by the readers.

A well written book with lot of valuable information in a single place. Brian has a good command of the subject matter
