## Customer Reviews

I usually find myself liking the heroine least of all the characters in these types of stories but Blue was well thought out and although the relationships between the primary characters seemed to develop quickly, it just seemed to fit with the heroine. I'm looking forward to the next installment.

A Girl Named Blue: The Adventure Begins by Cecilia Randell lives up to its name! It's a fantastic beginning to a new Reverse Harem series. Blue is starting her senior year of high school at a new

school. She's started over plenty of times due to her mom's job, but this is the first year without her beloved dad. To keep herself from falling into a funk, she has created a list. This is a wish list of new experiences to help her step out of her comfort zone. It also helps force her to connect with new friends starting on Day 1. While out hiking with her new friends, they accidentally travel through a portal ending up in another world. While there they face kidnappers, clansmen, and beasts; there's danger, violence, tragedy, attractions, and possibly love. Blue is definitely out of her comfort zone, but she's also never felt so alive. There is great world building in this book. There's a complete glossary and an atlas before the story even begins. This is a detailed, multi-layered universe. The story is well-done. It's full of thrills and suspense. It's quite original. However, it's the characters in this book that make it special. Blue is delightful. She is captivating, yet has no idea how she affects the people, especially men, around her. Her dad was a wise man and she has taken his lessons to heart. She cares about other people and tries her best to make them happy. The men are all yummy. It's obvious that Forrest and Mo'ata will be part of her Prida (her little ducklings!), but I am not sure which of the other men will join them. Forrest is the perfect young man to fall in love with; an artist, sweet, smart. Mo'ata is a bit older, but he's irresistible. Then there's the complicated Jason, the hooligan Trevon, her rescuer Levi, the mercenary with a sense of humor Felix. These are all possibilities. Interesting twist to not make her choices clear. I also liked her best friends, Pre and Kevin. It was so nice to have a girl become an instant friend instead of an instant enemy to Blue. I would have liked more detail once Blue returned to Earth. How did the disappearances play out? How was Phe able to finish her senior year? How did Jason fit in? There would have been mourning and an adjustment back to normalcy after such an experience. This is nitpicking. I enjoyed the book so much, I just wanted more. I want Forrest's last comment to take place quickly! I also want that comment followed by a kiss. Please!

I liked that it wasn't the whole insta lust or love but I could of used at least a little more romance. It was extremely slow moving in that department. There was only one kiss and it wasn't even with someone who spent anytime with her. He was a small bit player that obviously may be more in future books, but it kinda came out of nowhere and was disruptive. Since during the entire book we are awaiting for those she is attracted to make a move or have some extra meaningful moments together. I've read books that didn't have them kiss yet but there was always enough of those special meaningful interactions as it slowly built that still made it all worthwhile and kept pulling you in like a fish on a hook. This book needed some of that as it was very tame and at least for me lacking. There was no breathless moments...making your heart beat faster. However, despite that

this book still pulled me in after a little bit of a slow start and I ended up being invested in it and wanting to find out what happens next. There was action and I kinda loved the stories of her dad he sounded awesome. Loved the advice of letting people be who they really are flaws and all even when it isn't convenient.\*\*\*\*\*But the best part of this book was the penny instead of just saying sorry. Sometimes all we need is a sincere apology to let go of our hurt and move on, but other times we need more. I loved that this wise dad showed his young daughter that saying sorry is easy and when she really messed up wasn't worth much but making amends showed that it was more than just simple words and that her apology was heartfelt. So he had her give him a penny that he would use when he was ready for her to make amends from chores to spending time with him it was his choice. I thought it was brilliant teaching kids that words are sometimes easy to give but when backed up with actions it means so much more.

So here's the thing. The author did an amazing job of creating an extremely likable character. She is funny, cute, engaging and you can see why people are drawn to her. The story build up is good up until her friends start dying. I was following everything and invested in what was happening and able to overcome some of the immature action and attitudes, but I found it really difficult to accept the lack of depth of grief some of the characters displayed over losing lifelong relatives/friends. It was inconceivable to me that for how dark the author took the story that she didn't delve into how traumatized these people would be with everything that had happened to them. I am having a hard time looking at any romantic aspect of any of their relationships without looking at it and saying where is their PTSD?!! Because of where the story went and how traumatized I feel and how superficially the characters appear to have taken things, I'm glad the next book isn't out yet. I need a break to recover!

This is a very entertaining book. There are some editing issues, but according to the author the latest download has corrected those problems. There has been speculation as to which men will end up in Blue's Reverse Harem. I have my picks but you will need to get your copy of this book to make your choices. This is a great start to a new series and the worst part of this book recently being released is that now we have to wait for book 2! I suggest a lot of begging. That's my plan. Please, please Ms. Randall!!
