She is quickly becoming a favorite amongst swear word coloring book artists! That is because Outrageous Katie offers a unique swearsy experience with each of her books. Some of her books have jokes, puns, or just curse words. All of them, however, are a blast to color in and show off to friends. Your friends will be so jealous when they see how funny your coloring pages are. They may have swear word coloring books, but they have nothing that is like this book. (why this book is different). Coloring clubs also love this book. Group coloring is much more fun when there is something to draw that is suggestive and raunchy! Try these out at your coloring clubs next meeting, we know it will make quite the impression. Just make sure not to bring these around children, or someone who does not appreciate the type of content in Outrageous Katie's coloring books! Children are our future we would rather them be exposed to this sort of stuff a little later. It's always important to know your crowd!Getting friends interested in your new coloring book will be as simple as showing them a few pages out of it. We try and choose words that range from minorly explicit, to shocking. The response we want is that of disturbing, amusement, and enjoyment. Our books are meant to be funny, with a little bit of shock value, because sometimes shouting out a few swear words is all it takes to get you back to thinking normally. When we get angry and stressed we feel like our minds are going at a million miles per hour. Trying our books is a great experience for anybody who wants to slow down and relax their mind. We all know that racing mind feeling is uncomfortable, and sometimes it seems like there is no way to stop it. Simple, repetitive tasks are a

great cure for that. Coloring books offer you a simple repetitive task to calm and ease your racing mind.

Sometimes people and work can make you stressed and uncomfortable. Maybe one customer rubbed you the wrong way, or maybe your boss was being a little bit extra rude today. Most people need to relax and unwind at at least one point of the day. That can be much easier said than done whenever we are stressed and on a schedule. An Adult coloring book like ours offers you a chance at shutting your mind down, focusing, and relaxing. If our book can help bring a bit of laughter or serenity into people's lives we will consider our work a success. How will our books allow someone to relax? The answer to that is simple. It has been shown that using adult coloring books has similar effects to meditation. The act of meditation is simply trying to block out stimuli around you and focusing on your own breathing. People who meditate daily report having an overall better mood, as well as increased mental clarity, along with many other benefits. Adult coloring books can mimic the effects of meditation through intense focus on coloring. Playing relaxing music while coloring can help the user feel even more relief. Most people need to relax and unwind at one point of the day. It is easier said than done sometimes whenever we are stressed. Relieving stress is something that people have struggled with for generations. Sometimes people are so stressed they have to be medicated. Many people cure stress by expressing themselves creatively through art like painting. However not everyone can paint let alone draw. So why not let someone else get the hard part done for you? All you have to do with our adult coloring book is let your creativity run free and color in the lines. While you may not be the most artistic person in the world, you can still express yourself on paper with an adult coloring book. So maybe you don't quite have the artistic skill to take an idea and put it on paper. That's okay, because shading is just as important to artists as drawing. To some it is even more important. Maybe perfect lines will impress some people, but artists respect great shading. Adult coloring books can help you work on your shading abilities. Also you can use the coloring books for tracing practice as well. Our ink is very dark so it is perfect for use with tracing paper. Being creative can be hard, not all of us were made to be prodigies! Most creative pursuits require a very early start. Some as early on as 3 years old to be one of the best. Some of us just want a simple and private way to express ourselves creatively, and adult coloring books are perfect for that. They are very easy for beginners, and can turn out beautifully if you do them correctly. All of your work, however, is great because you actually took the time to make it. Creating art of any kind is a great thing, no matter how good or bad. You may learn that you love creating art and inspire a lifelong passion. How will

you know unless you try!?

This is a hilarious coloring book. Going to purchase again.

Bought as a gag gift for an elderly family member facing a painful post op. Was met with gales of laughter and still resides next to the patients bed at home. Absolutely not for children or people who are offended by profanity. Cathartic for those it doesn't bother.

As colorful as the expletives it presents. Lots of fun. I didn't think I'd be into coloring at my age...I kind of like it. Helps me relax.

Was a gift for my best friend and he LOVES it!!

Got this as a present for a friend. Wonderfully explicit. Not excessively detailed but still takes some time to complete. Definitely worth the buy.

Designs are not intricate, but they are funny.

Wife loves it

My girlfriend loved it.
