## Customer Reviews

Julia Lobo is a seasoned editor and author of all kinds of words, especially ones that delight little children and their parents. Cottage Door Press loves her so much that we hired her to be our in-house editor!

I purchased this Noisy Children's book for my grand daughter who will sit and read for hours. She is only 14 months but loves to turn the pages of books. With this book it is interactive and she can push the button for the noise with the pictures. The interactive buttons are a rooster, horse, cow, tractor, pig, owl, cat, dog, peep and duck. When you push the button it will make the animal or tractor noise. The pages of this book are a sturdy board and won't bend easily. She loves the sounds and even knows when to push them. She loves this book and I highly recommend.

We had first seen this at a Barnes and noble and thought that our kid (21 months) would love the sounds and probably would be her favorite book. But this book did not catch the top spot for more than 2 months now. I am not sure why? Hopefully she will like it when she is bit older. I would suggest take your kid to Barnes and noble to let them explore before purchasing it. Every child has different tastes. We still think it's a good book.

My grandson loves this book when others doesn't keep his attention. The only disappointment was the tractor sound. Being farmers , I expected a motor sound, not a wimpy little tune.

Excellent book for young toddlers. Very fun and interactive.

My little girl loves this book. I love the fast service.

The book is very sturdy and colorful. The best part is the sound from the buttons. Often the sound quality is poor and the buttons are difficult to push. I am very pleased with this book and would buy again for a gift.

My grand daughter and I have had many enchanting moments reading this book together.

My daughter loves this book. She had one for almost a year but spilled milk on it. It's a little pricey in my opinion, but she loves it!
