## Synopsis

Crystal therapy has long been used as a gentle system of holistic healing. By drawing on the unique qualities of crystals such as quartz and amethyst, you can balance the energy fields around your body, home and office to bring well-being, and gain health benefits. Crystals can help soothe emotional problems such as anxiety, mood swings, or shyness, as well as physical symptoms such as migraines and allergies. In addition, crystals can act as natural energy boosters and aid in detoxifying our systems. With crystal remedies for more than 250 common ailments and a directory of 250 crystals, as well as detailed explanations of the most effective healing methods, this book is the ultimate guide to healing with crystals. Illustrated with color photographs, and supplemented with practical exercises and case studies, *The Crystal Healer* is the ultimate practical reference from a highly respected healer and teacher.

Very nice pictures and details. Divided by stone color. Good index with stone names and disease conditions. Nice color pictures of stones/crystals. Straight forward, I like it.

The Crystal Healer: Crystal Prescriptions That Will Change Your Life Forever This book is great for identifying most polished crystals and other collectible stones and minerals, and the descriptions and useful health tips are great.

I love this book. It is an easy read with lots of info, some not found in my other books. Even my 15 yr old is reading this one.

Good reference book for many crystals, but I would love to find one that has many more crystals and gemstones listed. I still like it and use it quite regularly.

Amazing book, some much insight. Definitely gives me all the information I need when it comes to stones and crystals

Very beautifully put together book. Lots of great pictures, and healing descriptions, too. The only thing that would have improved this book is if it'd been spiral-bound - which would have made it a truly FABULOUS book. It's a great book, though. Love it. Recommended. Thank you.

love this book and use it as a reference weekly. Filled with lots of information and easy to understand.

This book is great for new and seasoned gem users. The layout is wonderful and very user friendly!
