Customer Reviews

"...the most clear and concise discussion I have ever seen on stream mechanics and trout biology, habits, and environmental requirements." -- Fly Fisherman, March 1997
"Eminently qualified as both a writer and a fly-fisherman, McLennan provides valuable advice..." -- Fly Fish America, Sept./Oct. 1996
"Trout Streams of Alberta is a handsome, small-format paperback with superb drawings and maps..." -- BC Outdoors, Sept/Oct 1998

Jim McLennan is an ardent fly-fisher, outdoor writer, photographer and river conservationist. He was one of the first fly-fishing guides on the Bow River, and in his thirty years of fishing the river he has seen its reputation grow to international status. He is the host of the television series Iron Blue Fly-Fishing and a frequent contributor to outdoor publications. The first edition of Blue Ribbon Bow received the Outdoor Writers of Canada Book of the Year Award and his Trout Streams of Alberta, a national best-seller, earned him the Andy Russell Nature Writing Award.

This is not at all a bad book, for what it is. But what it is is not really "Trout Streams of Alberta" but more like "A Beginner's Guide to Fly-Fishing (especially in Alberta)". Only about 100 pp. are on the rivers of Alberta (not much on "streams"). The rest is a general intro to fishing, spinning and

fly-fishing. Nice plates of the author's favorite flies. Some interesting stories.

A good primer for my upcoming fly fishing trip to Southwestern Alberta.

Wonderfull book thanks for the service

Awesome

The book reads like a novel. First book I have encountered that explains the "why" of using a certain fly. If you never fish an Alberta stream, the Chapter on a trout's lifecycle is worth the cost of the book alone. If you pursue trout, this book is for you!
