# Bass Scales, Chords And Arpeggios

## Synopsis

Bass Scales, Chords & Arpeggios is a comprehensive reference book for all bass guitarists. Containing a huge amount of bass guitar information, this book gives you the tools you need to master the fretboard. All scales, chords and arpeggios are presented in diagram form. Scales are also shown in one octave in notation and tab (starting on C). Find new sounds to inspire your playing: use new scales in your bass lines and play chords and arpeggios all over the neck. Designed to be the only bass guitar reference book you'll ever need.

## Book Information

ISBN-10: 0955656680

ISBN-13: 978-0955656682

Product Dimensions: 8.5 x 0.1 x 11 inches

Shipping Weight: 5.4 ounces (View shipping rates and policies)

Average Customer Review: 3.9 out of 5 stars 19 customer reviews

Best Sellers Rank: #664,679 in Books (See Top 100 in Books) #88 in Books > Arts & Photography > Music > Songbooks > Guitars & Fretted Instruments > Bass Guitars #9688 in Books > Humor & Entertainment > Sheet Music & Scores

## Customer Reviews

Well i'm a beginner and wanted a book to own that teaches you chords/scales and arpeggios And this one does a pretty good job of teaching you chords/scales ect. Its pretty basic but helps. Also good for if you forget a scale pattern for example and want to learn it or learn a new one.

If you are a beginner do not buy this book. It serves only to confuse. The tab examples of the scales presented in this book are atrocious. They would probably make more sense if the author told you what scale he is presenting. They do not line up with any of the scale diagrams. He is clearly going for diagram 1 but fails to clearly explain the scales position. The scale examples move up the neck in five diagrams yet the author fails to indicate the fret number each diagram starts on. Again if you are a beginner do not buy this book it will only serve to discourage. If you are not a beginner continue to shop around there are better books out there. The one stars are for the lack of explanation. I have been playing bass for twenty years and I have to say this book could have been

written better.

Simple. I took off a star because I think that it is a bit over priced for what it is. Nothing mentioned really about hand positioning, etc., while playing the scales. It just lists a bunch of things that you can easily find on the internet for free. It is nice to have it all assembled for you, so it certainly is worth something, but still, I feel that it is a little over priced.

long on movable forms, short on theory. barely any explanation how to use what you bought. The information was very compact. not a stand alone.

Simple, great book - it lays out the patterns without hiding the ball in theory. You can start playing immediately, and learn theory as you go.

The book is laid out well and has lots scale fret board patterns that are very useful. Especially the pentatonic scale patterns!

If you want to learn Bass this is the book for you. It will give you every thing you need to learn Bass Guitar. Bought it a couple weeks ago and I can't put it down. You will not be disappointed!

This is a good book for beginners as well as experienced players!
