Customer Reviews

"I love the artwork. Castles and magical lands have always intrigued me. I loved the idea of coloring

those designs and making them my own." - Bayb Heart. "I love the paper you used for your art work .. it really is easy to color on and as someone else said about the types of paper '' it has good teeth " love my book and the alphabet book and the smaller book. THANK YOU for sharing your amazing talent !!" - Terrie Woodford."The pictures are so much fun to color because you can really use your imagination with colors" - Marilyn Lewis.

Doodle artist, Steve Turner (aka Squidoodle) is a "doodler" as his nickname would suggest. His weapons of choice are common amongst this breed of illustrator - all his work is carried out using pens and pencils. Like many "commercial doodlers", Steve's work embodies the doodle aesthetic yet defies the strict definition of being "drawn aimlessly" through his thoughtful, ornate compositions and themes. He draws inspiration from nature, robots, skulls, zombies, animals, steampunk and more. Visit Steve's website www.squidoodleshop.com to download loads of free drawings which you can print and color, and sign up to regular special offers and news.

This coloring book has 30 hand drawn landscapes and each one is completely different. The pages are not perforated so when you tear the pages out of the book you would need to take care not to tear the actual image. There are no borders around the drawings. The paper is good quality and white in colour. The printing is black and it has been nicely printed. I coloured in using alcohol ink pens and they bled through to the other side but if you use colouring pencils you will not have this problem. The printing is all done on the right hand side of the book and the left side is blank (reverse of the picture is blank and not double sided printing). The drawings are all hand drawn making them unique and easy to colour although in some parts there are very small areas to colour in. I found the book a pleasant challenge and I really enjoyed colouring in a few of the pages. At the back of the book is a free download. Some pages that you can expect to find in this book are truck/house, tree house, toadstool house, mandala of houses, underwater and underground house, bird house and many more. They are all a bit wacky, quaint, unusual and very imaginative. The one of a princess castle is probably my favourite together with the unusual modern building. I really believe there is something for every taste in this book and I really think it is special. All "Squidoodle's" books are very creative and unique with a lot of thought that goes into them. I have a few of his other books and this one is just as nice. I have added a few photographs and will add more when I have finished colouring them in.

just got this and I love it!! The pictures are whimsical and east to use your imagination when

coloring--you can make anything any color you want cause it's imaginary. Check out Steve's other books too.

Squidoodle never disappoints. This book is awesome. Love the images. The paper is your normal createspace paper, no big deal to me. You either like it or you don't ya know. Awesome book highly recommend.

I got my copy of Steve Turner's Imaginary Buildings and Magical Lands..... I am totally in love. Beautifully drawn and great subject matter. I am totally thrilled. YOU are going to love it too

Big fan of 'doodle. This one doesn't disappoint. I love the fact that he hand draws his art instead of using a computer to create it. Good quality book as far as paper and binding, too.

A very awesome book!

Great Book! I love all the scenes. Some are simple some very unique. This is my first book by "squidoodle" but it won't be my last!!!

Not a detailed book. More for young kids. Large pictures, would need crayons for this type of coloring.
