## Customer Reviews

This coloring book is a 'Must-have' for anyone who loves coloring, magic and fairies. The artwork is VERY enticing and quite different from any other coloring book art that I have seen before. Each page is wholly unique, imaginative and inspired. The fairies are sweet and delicate and there are other magical creatures in these pages too! Coloring enthusiasts will appreciate the exceptionally clean line-work and the great balance of design achieved between the beautifully patterned backgrounds and the gorgeous fairies that nest playfully within their decorative and intricate frames. EVERY page is a miniature masterpiece just waiting for the colorist's attention. There are no "filler" pages inserted to just take up space like I've seen in other coloring books. The book is a perfect size to give as a gift or to take with you to work or on vacation. The paper stock is of good quality and the author gives some excellent suggestions about how to extend your coloring pleasure (including a secret link to some freebies). This book is a fabulous value and I got 4 of them to give away immediately to my friends who adore fairies and coloring. I can't wait to see their faces when they open the pages and see all the lovely drawings inside just waiting to be filled in. You will be very pleased when you get this book as it is exceptionally well designed and executed. Full disclosure: though I share the same initials and last name with the author I am not related to him. I myself am a Faerie House artist and I am eager to tell all my fans about this book it is THAT good!

I love this coloring book. I wasn't quite sure what to expect, purchasing sight unseen, but was truly surprised and in awe of the artwork involved. It must have taken the artist many, many hours to create and draw. So different from other coloring books I have perused. The intricate detail of each page with the beautiful and serene fairies and surrounds (patterns) is outstanding. I can see that this book is going to give me hours of enjoyment, relaxation and will also be a great stress reliever. This book would make the perfect gift for anyone young or old. I await with anticipation for the next addition.

I bought this wonderful coloring book so that I could do it with my 9 years old niece who visited me from France this July. She was enchanted by the beautiful and fascinating fairy pictures and characters and we both had hours of fun coloring together. It gave me a chance to spend quality time with her and also take my mind off my busy life at work and at home. Great way to relax while doing something creative!
