Medicine Recall (Recall Series)

Synopsis

Publisher's Note: Products purchased from 3rd Party sellers are not guaranteed by the Publisher for quality, authenticity, or access to any online entitlements included with the product. Written primarily for third- and fourth-year medical students in clerkships, *Medicine Recall, Fourth Edition* covers the core specialty areas within internal medicine: cardiology, pulmonology, nephrology, gastroenterology, hematology, oncology, infectious disease, endocrinology, allergy and immunology, rheumatology, neurology, and dermatology. The book is written in the rapid-fire Recall Series question-and-answer format, with the question on the left side of the page and the answer on the right. Mnemonics are interspersed throughout. Each chapter is written by faculty, students, and fellows and emphasizes diagnosis and treatment.

Customer Reviews

This book is a helpful Q&A type review book - if you are the type who does well with questions. Book is set up in Question/Answer format - by Systems. For instance, under Endocrinology: Anterior Pituitary Gland: What stimulates release of ADH? Answer is in the column to right of question - very handy. Mnemonics are also used in the answers, where applicable. I have the Kindle version - easy to maneuver about throughout the book.

the book is structured in a question answer format, which is great for quizzing and studying, and

gets straight to the pearls , and hits the high points that are on tests, I used this in PA school, did great

Very concise and handy. Can bring it anywhere even in the park when I bring the kids. Updated too. Price is affordable.

Excellent text.

Great review of Medicine in a question--answer format.

Very happy with this purchase. Covers a lot of information but it is well organized and the question style is easy to review!

Nice overview book and gives a good review of all the systems. The book is small enough to keep with you as a reference book .

This one, and the advanced medicine recall are almost the same book, just a few addition and subtraction of questions. I think they figured they could make more money by taking the old big one, split it into two with some doubling up of the questions.
