Customer Reviews

Magic Eye(r) ignited the worldwide 3D craze of the 1990s. In fact, Magic Eye I, II, and III appeared on the "New York Times" best-seller list for a combined 73 weeks. More than 20 million copies of Magic Eye books have been sold in more than 25 languages. The weekly newspaper syndicated comic strip has appeared in newspapers around the world since 1994 and became the fastest start-up syndication in the history of Universal Press Syndicate. I bought this as a gift for my daughter's family and she told me they are having fun with it, minus one family member who just can't get it and thinks everyone else is playing a joke on her. Hahahaha!!!!!! :-)

I have been a fan of these books for years! Now my students love them too! You have to practice a bit. First, hold your nose to the book, and then pull it away very slowly. It will take several tries. It

explains it all in the instructions. You absolutely cannot study the picture to see a hint as to the "floater" or 3-D effect. I have tried and tried - which is part of the fun. I also love that they show you the picture "answer key" in the back of the book.

why do i have to review this, either you know what it is and love it or you don't

This book is packed with more images than any other I own, and more vivid colors. I have a lot of favorite pictures, and I love that there are varying degrees of difficulty and depth so there's something for everyone in this book. My only regret is that I can't frame a couple of them as abstract art on my walls. If you're looking for an all-inclusive book of Magic Eye visual art, this is definitely my top choice and top recommendation.

it takes a time to achieve the point but when it happens it really nice feeling!! I will recommend to anyone to practice

I've always loved these magic eye books since I was a little kid. It's so exciting to be able to see the pictures within.

I first saw/read one of these in my dentist's office and, years later, remembered them and went on a hunt to buy all I could. Mission accomplished...for the most part. These books are really amazing and help you train your eyes. I'll look at them, put them away for a while, then bring them out later and it's like the first time all over again. Very cool.

I am speaking for myself when I say that I really enjoy these books. A lot!
