Credentialing A To Z

Synopsis

Credentialing A to Z is an on-the-go reference packed with easy-to-digest information, Q&As, quizzes, notes, and downloadable forms that will help MSPs gain knowledge about their tasks and the value of their work, enhance team-building, and combat burnout and stress. Author Mary Long, CPMSM, brings in-depth insights, a light touch, and a sense of humor that fellow MSPs will appreciate. This valuable reference guide addresses, defines, and explains your toughest topics in alphabetical order, including: A: Applications where all credentialing processes start, and possibly end. APPs are advanced practice professionals processed through the medical staff services department or human resources? B: Bylaws, policies, and rules and regulations do you know where your medical staff information is? C: Credentialing the right information to verify, and the correct way to do it. G: Governance an organized medical staff requires governance in order to function. But what does that have to do with credentialing? M: Meetings medical staff management in minutes. P: Peer evaluations, FPPE, and OPPE who's a peer? Who's a good peer? Privileging the whens and hows of core privileges, disaster privileges, emergency privileges, and temporary privileges of all stripes. R: Reappointment building and sticking to a cycle. Red flags spotting them, stopping them, and getting answers. V: Verification the querying process, the organizations, and the information they provide. X, Y, and Z: Xenon, yag lasers, and zero data (mastering medical terminology no, CABG isn't cabbage) Credentialing A to Z provides new MSPs and credentialing coordinators on-the-job spot training that will build and test their knowledge in a fun way before they're put to the test with less-fun credentialing challenges (such as surveys). All quizzes, Q&As, and other forms are downloadable and customizable, allowing MSPs to tailor them to their programs. Who Will Benefit: - Credentials coordinator/manager/specialist/professional - Medical staff office director/manager - Medical staff coordinator - Provider enrollment specialist

Book Information

Paperback: 200 pages
