Founded in 1947, Hal Leonard LLC has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

I'm an older player/learner who practices in spurts around many activities. I wanted something that would not get me too frustrated, but would also allow me to have some sense of accomplishment.

I'm not a good pianist, play for myself and not others, and cannot be a good judge of the musical accuracy or sophistication of this music. I've read that this editor in other easy piano books makes mistakes with notation. Better musicians have complained that the editor sometimes makes original tunes seem unrecognizable. To my weak ears, this collection and its arrangements are just about right. I'm also very pleased with the traditional selections--and the price was right.

This is quite a nice collection of songs with many of the classics and a number of songs not found in other books. It is always good to have a few new songs that have not been done to death. There is also a nice ratio of sacred to secular songs. This gives the player a well rounded selection for many types of performances. These can be used for personal enjoyment, a family sing-a-long, or for use in church settings. The songs themselves are appropriate for the middle to late beginner, and especially for the adult beginner. I have not played through the entire book, but have flipped around to get a sense of the book. Though the arrangements are simple, they are satisfying; some even with a hint of jazz progressions. I would recommend this book for a no stress holiday romp on the ivories.

Beautiful book. Shows chords and lyrics for all songs. Great easy piano score. 100 songs on 272 pages. Book opens easily for flatness. Hal Leonard does a nice job with all piano books. Just wonderful.

This book is pretty good. The skill level required varies quite a bit, but I was able to slog through most of the songs after not having played for >20 years. It includes most of the standard Christmas carols and some other less-common songs, although it skews old (the most recent song is "War is Over"). I'd like to see a Vol II with newer songs and songs that weren't included in this volume (like We Need a Little Christmas).

I love this book and all of the songs in it. I play songs at the level 2 and 3 level and this is perfect for me. It's not too difficult but not too easy either. And it has a ton of songs!

The book is perfect, for my purposes. Pretty large format, easy to read. Easy to play, even though I'm out of practice. Plenty of tunes, religious and secular.

I don't care for quite a few of the arrangements. The left hand notes sometimes sound too dissonant,

off key with the main tune. I would prefer more chords for the left hand.

I'm an amateur at best on the piano, so to have something very basic is a huge must. This book is enormously easy to work with and the songs are all the traditional Christmas oldies but goodies. Being 58 there are a few that brought back good memories of when I was a kid. Nice selection as well, and the big print is easy on my tired old eyes. Great tunes and lots of fun! I will use this book when my granddaughter gets big enough to start playing the piano with me.
