It's a Yankee Swap gift....can't wait for all to see it!

The minute I opened the box, my 10 year old took her wreck it journal and began filling in the pages. This book is going to be perfect on our road trip if it's not finished before we start our journey. The pages are excellent quality even paint didn't bleed through.

I can never write in a journal even if I force myself to. This is a very fun journal to do with your children or for adults to do on their own. It doesn't require you to write anything. Just be creative and make a mess. This is my motto I live by when creating something. Great for children because they don't have to write. They can have fun and make a mess. Just what children like to do. This also helps them bring out their creative side they didn't know they have. It brought mine out and I am an adult. Great for adults who don't like to write but like to be creative. This is also great for any college student. College can be stressful and boring. Sometimes college students don't have time to write in a journal because they are so busy with homework and assignments. This is a great stress reliever for College students who hate writing or just don't have time to write.

So much fun! We take this with us and complete pages with each outing.

Unique journal to stir imaginations, but caution parents to review it as some pages might not be appropriate.

Just wanted I was hoping for and more. I am ordering more worked just as I had hoped Just as described and worked great... Thanks pretty nifty for the price I saw the following evaluation, everybody says this is a good product and receive it after use, I think they said is right, I am very happy.

Great just like new:)
