Best Sellers Rank: #641,553 in Books (See Top 100 in Books) #210 in Books > Religion & Spirituality > New Age & Spirituality > Divination > Prophecy

Customer Reviews

John Hogue is author of 500 articles and 26 published books spanning 19 languages. He is a world-renowned expert on the prophecies of Nostradamus and other prophetic traditions. He claims to focus on interpreting the world's ancient-to-modern prophets and prophecies with fresh eyes, seeking to connect readers with the shared and collective visions of terror, wonder and revelation about the future in a conversational narrative style. Hogue says the future is a temporal echo of actions initiated today. He strives to take readers "back to the present" empowering them to create a better destiny through accessing the untapped potentials of free will and meditation.

At the beginning of the book, you get an interesting overview of nostradamus life and times. The author goes into detail about the accuracy of many of his predictions. And suddenly, he veered off into a rambling of why 2012 was not the end of our world. He started taking potshots at his competitors in the field of prophecy and continued down this dismal road until you were hoping the world might end so you wouldn't have to finish this book. Very disappointing!

John Hogue is an extraordinary researcher and writer. His approach is unique in all the world. You should get all of his books because they all are connected. If you want to really find out about what

is in store for the future and learn to take your blinders off get all of his books, visit his Hogueprophecy pages and you can also find special donator's editions with extra chapters for some of his books!

Hogue is not for the faint of heart. He does not always give a cheery outlook, and is more often than not, eerily accurate in his predictions. I don't always agree with his assessments of people, but it's hard to disagree with his track record of predicting events. If you want to spy into the future and are not afraid of what you might see, Hogue is your guy. Enjoy!

Not the happiest of Hogue's insights-very interesting and political points are excellent. Have been a listener/reader for years-can't wait to see the next one!

It is a very interesting take on Nostradamus' Quatrains. John Hogue has a very good track record with his prognostications over the years. Those who don't learn from history are doomed to repeat it.

Wonderful book by John Hogue - I'm reading it again - slowly this time! Thanks John - great book

I didn't have confidence that the author knew what he was talking about. Most of it is his imagination.

A good read.
