## Customer Reviews

Very nice interesting short and simple to understand. Makes a nice gift if you know someone in to giving sensoul massages.

Only book my husband has read in seven years.

Apparently my husband has been staying late up night searching for professional tantric massage place or tantric masseuse. I wasn't really going to disagree because he deserves it after all this limitless sacrifices on his days of work but shockingly based on what I found in the web those masseuse charges extravagantly. I knew I had to do something about it and learn somewhere so I blindly picked up this book. As an alternative, I can try doing it for him. Tantric is a form of massage that I evidently don't dabble in yet however this book was able to address all my concerns. While I am getting all mystical and putting all these treasured info into practice I knew I just gave him what he is craving for.

I purchased this book about a year prior, and read it a few times. I like this book since it is extremely broad and spreads everything, from the real idea of tantric massage and the numerous varieties accessible. It gave me a radical new point of view towards it and how profitable it is for our body and well being. My significant other has been suffering from back pains and getting a therapeutic massage was getting costly. Subsequent to perusing this book I am presently ready to mitigate his agony. I simply needed something with do's and don'ts so I could give my better half a relieving massage and this book skilled me considerably more than what I longed for.

Ostentatious read! This book reveals all the traits and steps on how to be the perfect tantric masseur most of our partner might have been longing for. The utmost chapter for me was the third one where the writer emphasized why sex matters and why it's foremost not to be taken for granted. I've accomplished to level up on tantric massage following the R.Riley way. It's the little things that matters, my wife always say. So I'm thinking I have nothing to lose while studying all those chapters by virtue of she procures to be pampered and I hope she notice how sincere I am.

I think it was expounded fine and dandy! The book is the perfect measure of tantra and sex blended. Tantric massage is truly a reviving, slight blend of both western and eastern logical work. It has extraordinary thoughts for exceptional breathing systems and a top to bottom portrayal of tantric sexual massage. It's loaded with some fun sounding activities and also supportive clues for individuals keen on tantric sexual massage. I'm not a massage specialist and somehow I can value this book's teaching. In the event that you need a well ordered manual for learning tantric massage,

this is preternatural book for you!

Very obvious information that could be found online on a cheesy site. Weak content, would have preferred more pictures, technique, diagrams, anything to make this a credible manual on massage. Filled with a staggering number of grammar errors and read like a poorly proof-read high school project.

Quite incredible! An epic read that outlines the difference, presented the significance and enumerated the benefit of tantric massage and tantric sex on its followers. This is a no non sense guide that takes the pursuers straight to their destinations without any short cuts which avoid confusions. I cannot even begin to describe the emotions i felt before, during and after one tantric massage session. This book was able to effectively share all the tantric massage principles to tantric practitioner wannabees like myself.
