Customer Reviews

The waterproof and tear-resistant coating makes easy folding and unfolding difficult and cumbersome, and front and back overlap considerably; it's not very convenient out on the road. Nowhere near all the "roads" are included, so that for all but the most basic tours, the map won't be of much use. Names of some well-known places -- especially for tourists -- aren't there, making for time wasted in searching. This may be the best map available (I didn't consult all of them), and it is the most recent, but there should be something more like a Michelin map out there.
