# Dr. OB: St. Luke's Docuseries Series, Book 1

## Synopsis

It's just a docuseries about your career as an OB/GYN, they said. It won't interrupt your life during or after filming, they said. It's a great opportunity for the hospital and your practice, they said. Well, they - the television executives who seem intent on ruining my career and personal life with a fair number of creative liberties - lied. Now I'm stuck dealing with the consequences of believing them. Instead of being known as Dr. Will Cummings, head of obstetrics and gynecology at St. Luke's Hospital, I'm now being called Dr. Obscene. What devotion I'd hoped to earn in respect, I've instead received in patients flashing me seductive smiles and flirtatious winks during their exams. How's a guy supposed to convince the most perfect woman he's ever met that he's not as much of an idiot in real life as he appears to be on camera? Contains mature themes.

## Book Information

Audible Audio Edition

Listening Length: 8 hours and 34 minutes

Program Type: Audiobook

Version: Unabridged

ASIN: B0741LNJRT

Best Sellers Rank: #161 in Books > Audible Audiobooks > Romance > Contemporary #1358 in Books > Romance > Romantic Comedy #1766 in Books > Audible Audiobooks > Fiction & Literature

## Customer Reviews

HOLY WHOA! I'm a complete bundle of mushy, melty goodness right now. That was amazing! Just incredible. Whew! ::releases deep, contented breath:: OK... First things first, a warning. This book is OTT in parts. JAW DROPPING, actually. I cringed while covering my eyes and died laughing. The hero's an OB/GYN and some of the things he encounters are whacko. Secondly, this is FICTION. MAKE BELIEVE! I know crazy things happen in real life DR / Patient settings but man, this gets a little OTT. So be warned. It's OTT, BUT utterly amazing. Every second was the ABSOLUTE BEST. I ate up the craziness like it was a piece of chocolate mousse cheesecake (my favorite)! It's HILARIOUS, laugh out loud funny to the point of tears. And the sweetness of Will with Melody

::leans back and groans in delight:: it made my heart feel so full of happiness. So expect crazy fun, seriously hot and sweet romance, because that is exactly what DR. OB is; hilariously sweet, sexy fun!Ahhh.So... the moment this book showed up on my Kindle, I started reading. I was ELATED. Max and Monroe are my most favorite duo. I consider them the BEST OF THE BEST when it comes to RomCom. The QUEENS. I'll read whatever they write, whenever they write it. To say I'm a teeny bit obsessive over the characters they create and worlds they build, would be an understatement. I feel like they write my perfect books. The kind of stories that offer me pure escapism and I want to read them all the time.DR. OB came at the perfect moment. It's funny because I was just telling someone that I wanted to read a series about Doctors. One, where the hero's saving lives and being all alpha. I mean.. What could be hotter than that, right? And then there was Max Monroe, a week later, with a surprise NEW series coming our way. I FREAKED out. Then, when I saw that it was about Will Cummings, Georgia's brother, I had another bookish moment.THIS WAS EXACTLY WHAT I WANTED TO READ!And truthfully, I had massive expectations for this story. And you know what? It BLEW THOSE EXPECTATIONS OUT OF THE WATER!This novel's downright hysterical. I devoured it. Will is the head physician of St. Luke's Obstetrics. He's the star of a brand new Docuseries called The Doctor Is In. He's single, a bit of a player, but he has the biggest heart EVER. He's the ultimate gentleman. If you've read Max Monroe's Bad Boy Billionaires Series, you'll have met him there as Georgia Cummings brother. If not, don't even worry. This is a COMPLETE standalone. Nothing needs to be read before it. Will is a deliciously sweet character. He's real and honest and he made my heart feel full. He's the kind of man that you wish you could have in real life. Funny and charming, thoughtful and charismatic, and an amazing Doctor. He's doing this Docuseries that he's initially excited about. He feels like it's going to spice up his life while bringing notoriety to the hospital and his practice. But when the first episode airs, Will's life is tossed upside down.Melody Marco is back in New York City, moved in with her parents, and jobless. She's coming off a relationship where all she did was give give give and all her ex did was take take take. Melody's kind of lost, feels unsure of where to go with her life, until her mother Janet takes things into her own hands and gets her an interview at Will's practice (lol). Melody's spent the last several years as a Labor and Delivery nurse.Will and Melody have the FUNNIEST meet cute I have ever read in my life. LITERALLY. I thought I had read everything. That nothing could shock me. But OMFG. WRONG. WRONG. WRONGGGG! It was hysterical and awkward and I don't even have words for what I read. My stomach hurt from laughing. These two are something else and I was enthralled with them. I loved reading as they formed a friendship that had me swooning and then when it turned into the sweetest romance ever, I was owned.Truly, I loved every second of reading

as they traversed the pitfalls of Will's new found fame, and as Melody tried to figure out what she really wanted out of her life. It was endearing to watch them together and it certainly made me hot and bothered when the steamy scenes came in to play. Melody and Will have the BEST chemistry and it burns up the pages of your kindle. Overall, this book was a everything. A slam dunk, a home run, a hat trick, a touchdown, a whatever. As you can tell, I LOVED it. I can't stop swooning over it. I want to tell everyone about it. It really was everything I wanted and so much more. I can't say enough good things about this novel and this duo of authors, and I cannot wait until we get the next standalone in this series. I'm addicted. Completely. Whole-heartedly. A top favorite for me.

If banter is my reader's drug of choice, Max Monroe is my dealer. I can count on this mysterious author duo for a guaranteed fix, and I am not ashamed to admit that I am addicted to their writing. Dr. OB is the perfect blend of hilarious, sexy and romantic, and I enjoyed every minute of this utterly unique and entertaining book. Dr. Will Cummings is an exceptionally talented obstetrician, who is currently starring in a docuseries that was edited to be more of a salacious reality show than a documentary. It's creating havoc on Will's reputation and even prompting women to vajazzle themselves for their pap smears in an attempt to gain his romantic interest. Awkward. He meets Melody Marco amidst the show's chaos when she's hired as his nurse, and he's gobsmacked and adorably awkward from the moment she walks in the door. She's just as dazed by him, and they both trip over themselves and their words trying to pretend they're not attracted to each other. Soon, they settle into a rhythm of charming, playful and flirtatious interactions amid the crazy patients and general mayhem, all of which kept me laughing and smiling like a loon. Even Will and Melody's internal dialogues are clever quips and deadpan sarcasm, and I don't have time to wax poetic about the smart wordplay and constant ribbing by the memorable (and familiar) secondary characters. Dr. OB is brilliantly unpredictable with no shortage of witty exchanges and laugh out loud moments, but it is also a sigh-worthy, heartfelt romance that will melt your heart and leave you begging for your next hit from Max Monroe. Recommended on USA Today's Happy Ever After.

I'm not going to lie, the day I turned the last page on Scoring Her the last book in the Billionaire Bad Boys Series I was truly upset that we had seen the last of the Boys and their Girls... I had laughed and cried and everything in between with Kline and Georgie, Thatch and Cassie and Wes and Winnie. But I shouldn't have underestimated the duo of Max Monroe!! In this first book of St. Luke's Docuseries, we get to see our favorites once again as this story focuses on Will Cummings,

Georgie's aka Gigi, brother and Melody Marco an unlikely pair, but in reality, not so much. Dr. Will is an Ob/Gyn and works at St. Luke's and there's a 12 week documentary being filmed about him as they follow him around the hospital. Well it's not exactly what anyone was expecting and this is where all the shenanigans begin! Melody has moved back to New York after her relationship goes kaput and that's putting it nicely. Her mother a true Yenta is all up in her business and arranges a job interview for her as a nurse in Will's practice. What Mel doesn't know she's getting into though sets the stage for a few misunderstandings, some sarcasm that had me rolling and finding the greatest love of her life...but I digress. As the docuseries rolls along, the way Dr. Will is portrayed had me rolling. I felt bad for him in that he really isn't St. Luke's equivalent of Dr. McDreamy, but it certainly got him some attention, and not always in a good way. Especially from the nurse in charge of his office Marlene! This woman had me busting out with some of her looks, responses and overall attitude about Will, Melody and the TV show. As Melody works closer and closer with Will, their attraction cannot be stopped. There's a connection between them that I think even astounds them. The fact that Mel hadn't seen the first couple of episodes of the show I think helped her see who Will REALLY is. At one point, she even admits to herself they're on fire...."Our attraction was almost visible. It could be seen and felt and tasted all around us." I just kept flipping the pages getting more and more engrossed in their story while alternately fanning myself and wiping my tears away from laughing. It's not all roses for our H/h pretty much thanks to the now nefarious show. These two have some major bumps to get over. Add to this our doses of my favorite couples, and I'm in book heaven!!! This book is such a fun read. It's got the humor that I've come to expect from these authors, the steamiest sex out there, Will really is all swoony and will do anything for Mel just to make her happy and the lengths he goes to just proves that he's really NOT at all how that show makes him look. This is absolutely another winner from this duo and I can't wait to see what happens in Dr. ER!!!
