Sadie was kidnapped by the Tor at the end of the last book, the same alien race that destroyed the Thalassic City. While at Tor, Sadie learns about her past, her present and even her future and it looks like her worst nightmare will become her new reality.Griselda's is Tor's leader and the worst monster to exist in the Galaxy (think I'm joking, just read this novella and see for yourself, she is a freaking monster), and she has mapped out a destiny for Sadie since she was a little girl (since she was 4 years old to be more specific). She lets Sadie learn the truth of her heritage and her true "destiny" and what her mission all along was and wait for it..to kill Logan. Sadie, refuses to cooperate, of course, and risks to pay the ultimate price for her defiance.The love of her life is Logan and because of this love she promises herself that saving him and saving the world is what really matters. She will do anything to make sure Griselda doesn't go through with her plan, even if she has to die doing it.This novella was everything and a little more, this is not a novella that you can skip reading, it is not an optional reading, it's a must reading in between books 2 and 3. It will clear some answers for you and Sadie (lol) and then will make you want to throw the book across

the room once you are done with it. Why? Because Siobhan finish it with another cliffhanger and I'm dying right here, that's why. I know, I know, I should just be used to be now and I am but it's killing me and I need the next book right now. Okay, I'm a little more calm and I'm done panicking and will end by giving my rating.Of course I gave this book 5 out 5 stars and can we talk about how Siobhan makes these alien boys look so damn hot? AHHHHHHHH.

This novella was awesome, it filled in so much! There was so much that shocked me and worried me. We meet the Tor...another alien race, and they are enemies of the Saven. They have time travel technology. It's so interesting. I don't want to give away too much, but there so much we learn about Sadie in this novella!!! Next, on to Saven Defiance (book 3)!!! This is such an awesome series!!! Have I said that before? Only a million times. :)

Wow, wow, wow! Twist and turns you probably wouldn $\tilde{A}f\hat{A}c\tilde{A} \ \hat{a} \neg \tilde{A} \ \hat{a}_{,,c}t$ expect. New romance flaring up, betrayal, mystery, and deception. Its like an emotional roller coaster, but a great one. Save Denial is a must read it is beyond amazing. you will be left on the edge of your seat. This book makes you feel like you are part of the book with so much details and drama you won $\tilde{A}f\hat{A}c\tilde{A} \ \hat{a} \neg \tilde{A} \ \hat{a}_{,,c}t$ be able to put Saven Denial down. Save Denial is great for all ages interested in a romance and suspense filled book. You won $\tilde{A}f\hat{A}c\tilde{A} \ \hat{a} \neg \tilde{A} \ \hat{a}_{,,c}t$ be able to put this book down words can $\tilde{A}f\hat{A}c\tilde{A} \ \hat{a} \neg \tilde{A} \ \hat{a}_{,,c}t$ describe how good it is.

This is all about Sadie book and I loved it. Said didn't once give up on what she held true. She fought against these truths and held strong even when everything she thought she knew was unraveling in front of her. She wasn't exactly surprised, she had a feeling about some things, but Ax?!? That's a new curveball and a good one. But the ending? I kind of wanted to punch Hadyn. Some new characters and allies are introduced into this one but it's a good change. Can't wait to see what the next book holds.

Absolutely loved it!! You were saying you don't do Science, Siobahn Davis..who cares?! It's intriguing what you have hit on but it's truly the interactions of the characters and location descriptions with the other things thrown in! I reread this book several times I was so intrigued! Can't wait for the other books! Keep

Sooo GOOD!!! This just keeps getting better, and better! I can't wait to see who Sadie stays with. It really has all the elements in a book that keeps you guessing. I personally hope it's Logan. To say this series is good means a lot because it holds my interest and I'am a 65 year old female!!! YEAH..

This is really a segue to the next book in the series, so it wasn't quite as fully fleshed out as books 1 and 2. It's still a fun and fascinating read... It just feels a little incomplete compared to the young adult fantasy romance masterpieces that preceded it. I'm looking forward to the next book.

Awesome series. Can't wait for the next book in the series to come out in December.
