The Putin Interviews: Oliver Stone Interviews Vladimir Putin

Synopsis

WITH SUBSTANTIAL MATERIAL NOT INCLUDED IN THE DOCUMENTARY Academy Award winner Oliver Stone was able to secure what journalists, news organizations, and even other world leaders have long coveted: extended, unprecedented access to Russian President Vladimir Putin. The Putin Interviews are culled from more than a dozen interviews with Putin over a two-year span-never before has the Russian leader spoken in such depth or at such length with a Western interviewer. No topics are off limits in the interviews, which first occurred during Stone's trips to meet with NSA whistleblower Edward Snowden in Moscow and most recently after the election of President Donald Trump. Prodded by Stone, Putin discusses relations between the United States and Russia, allegations of interference in the US election, and Russia's involvement with conflicts in Syria, Ukraine, and elsewhere across the globe. Putin speaks about his rise to power and details his relationships with Presidents Clinton, George W. Bush, Obama, and Trump. The exchanges are personal, provocative, and at times surreal. At one point, Stone asks, "Why did Russia hack the election?"; at another, Stone introduces him to Stanley Kubrick's 1964 Cold War satire *Dr. Strangelove*, which the two watch together. Stone has interviewed controversial world leaders before, including Hugo Chavez, Fidel Castro, and Benjamin Netanyahu. But *The Putin Interviews*, in its unmediated access to one of the most enigmatic and powerful men in the world, can only be compared to the series of conversations between David Frost and Richard Nixon we now refer to as "The Nixon Interviews" of 1977. The book will also contain references and sources that give readers a deeper understanding of the topics covered in the interviews and make for a more robust reading experience.

Book Information

Audible Audio Edition

Listening Length: 9 hours 45 minutes

Program Type: Audiobook

Version: Unabridged

Publisher: Dreamscape Media, LLC

Current Events > Freedom & Security #257 in [Books > Politics & Social Sciences > Politics & Government > International & World Politics > Russian & Former Soviet Union](#)

Customer Reviews

This book bravely shows the reader the Russians' side of the story, a perspective sorely missing in the current debate over U.S.-Russian relations. This book will lead to a greater understanding of how Russia views the U.S. and the world at large, and will hopefully aid in paving the way toward a more peaceful and constructive relationship between our two nations.

Superb and revealing set of interviews. The rabid demonization of Putin leads us on a road to conflict and war - if war, then Armageddon. These interviews go some distance in refuting this demonization. Better to see it than to read it - but the book is valuable because it provides a transcript of the interviews and some additional materials. I cannot recommend it highly enough.

Haven't finished it but I find it very interesting to see into Putin's thinking. He may be a bad guy but Oliver Stone, the interviewer comes off as the ignorant jerk.

Russia has a constitution, laws, and human problems like any other country. We do not need and cannot afford another cold war. We can compete and cooperate and learn from each other's mistakes and accomplishments!!!

It is important to know and understand Mr. Putin's views on international and domestic politics. The personal touch of the interviews gives also a unique possibility to get closer to this powerful person. This is an excellent book which can be read in parallel with the TV series. The fact checking comments, references and internet links are especially useful in this respect.

different point of view to world events

Awesome

Having previously watched "The Putin Interviews" on Showtime, I found myself once again totally engrossed in the additional information and enjoyed the clarity and humanity in which Oliver Stone conducted his interviews. He managed to reach Putin in a personal way and as a result, a

fascinating portrait of this world leader emerges. Putin comes across as a complex human being, with not an ounce of self-pity, for example, when he talks about his two siblings having died before him during harsh post-World War 2 time, and having found his little brother's grave recently. I'm not a political person per se but find this important book written with great integrity. I was fascinated by every detail from beginning to end. It is a conversation between two mature, powerful men, who come together in a climate, where the media have been unjustly demonizing Putin. An important contribution to world peace.
