Vocabulary Cartoon Of The Day For Grades 2-3: 180 Reproducible Cartoons That Expand Students' Vocabularies To Help Them Become Better Readers And Writers

Synopsis

Make learning essential vocabulary words a favorite daily routine! Students will look forward to each day's new vocabulary cartoon, which identifies the word's part of speech, provides a simple definition, and uses the word in a sentence that is supported in context by the cartoon. The visual cues and humor of these cartoons work hand in hand to make new words fun to learn and easy to remember! For use with Grades 2–3.

Customer Reviews

My boys (ages 6 and 7, grades K and 2) love this book! They ask me to read some of the cartoons every night before I read from a chapter book before bed. Some of the cartoons are not really laugh-out-loud funny, but they are entertaining enough for the boys. I have to explain some of the humor, as they don't always get all the inference due to their ages, but they still love the cartoons, and that's what matters. I think the humorous cartoons help them understand and remember the vocabulary, but I don't test them or anything, so I don't have concrete data on effectiveness. I mainly bought the book as help for my 2nd grader who gets tested on vocabulary as part of reading comprehension assessments. He enjoys the book, so hopefully he'll absorb some of the vocab meanings. There are two cartoons on each page along with the word, part of speech and definition to the right of each cartoon. Each cartoon is separated by a horizontal dashed line so that you could

cut the page in half or photocopy the page and cut the page in half. That would be helpful if you were in a classroom setting or were using these as part of a lesson.

I use this with my students who are hearing impaired and they LOVE it. So do I. Their retention of new "power vocabulary" words, as we call them, is impressive. Would recommend to any teacher.

I purchased this to be used in my Special education department and all of the Speech/language pathologists as well as Special Ed teachers are excited to use it for morning warm ups. I LOVE that there are 180 activities, one for each school day AND that it is broken down into parts of speech. I am all for sneaking in learning when kids don't realize it!

I like this book, and would be a great book for reproducing for multiple kids. You can copy pages, and have kids cut them out and make a book. Tips on other ways to use book in the front pages. Attractive way to learn.

This book is just ok. I did not like the fact that it only gave one definition when some words have several meanings.

The cartoons in this book provide a great, fun way to teach vocabulary. The students enjoy the pictures and the context helps them figure out the meaning of the words. I would definitely recommend this book to teachers and parents.

Some of these cartoons are funny, but some are outdated and my kids did not understand them.

I have so many teachers love this and ask where I bought it. They are complex enough for 3rd grade but simple enough for my first graders. The cartoons are cute and really help the kids remember the words. I would definitely recommend to any ELA teacher!
