## Synopsis

One of the most powerful of the Seth Books, this essential guide to conscious living clearly and powerfully articulates the furthest reaches of human potential, and the concept that we all create our own reality according to our individual beliefs. Jane Roberts (May 8, 1929 - September 5, 1984) grew up in Saratoga Springs, New York where she attended Skidmore College. Jane was a prolific writer in a variety of genres including poetry, short stories, children's literature, fiction, and non-fiction. Her international bestselling non-fiction books include *Seth Speaks*, *The Nature of Personal Reality*, *The Nature of the Psyche*, and *The Individual and the Nature of Mass Events*. Her enormously popular novels include *The Education of Oversoul Seven*, *The Further Education of Oversoul Seven*, and *Oversoul Seven and the Museum of Time* (now published as *The Oversoul Seven Trilogy*). Yale University Library maintains a collection of Jane's writings, journals, poetry, and audio and video recordings that were donated after her death by her husband, Robert F. Butts. --This text refers to an out of print or unavailable edition of this title.

This is a treasure trove for the spiritual seeker. I have read this book all the way through twice (and excerpts numerous times) and gleaned something fresh from it each time. Further, there is

something to the quality of the writing itself that always brings vivid dreams with opportunities for dream work. I would recommend this book to anyone interested in the subtleties of consciousness, anyone that has ever felt there was a greater significance to reality than can be perceived with the five senses.

Book arrived in great condition for a used book. Price was right. So far, it is quite an interesting metaphysical book. Explores deeply the nature of human consciousness and the soul experience. Would recommend if you like books of a spiritual nature.

Although this was written some decades ago, before my time, it was, for me, a revelation. It is said that when the student is ready, the teacher appears. I am very much looking forward to continuing my tutelage under Seth! Magnificent and inspiring. Thank you Rubert and Joseph!

Sorry this book does NOT need a review. It is the BEST I have ever read; and I have read many . . .

It's a somewhat difficult read. I have never read a book with the style of more-or-less printing their transcription along with narrative thought/explanation from the transcriptionist.

This is a map of sorts for wanderers, explorers. Throughout the book is the sense that "we're not in Kansas anymore" and the reinforcement that "there's no place like home".

This book is very life changing, I read many metaphysical books, however with this book Seth ( An entity no longer in physical form), explains everything clearly with many details. There are no unanswered questions with Seth, he gets to the point. This is the perfect book to start with, I plan on reading all of Seth's/Jane Robert's books. The second book I will read is The Nature of Personal Reality. You should only read these books in order, so you will totally understand them. If you are ready to go on a Spiritual Journey, if you are ready to read a thought provoking and mind boggling book, please read Seth Speaks: The Eternal Validity of the Soul... You will definitely perceive life differently, than you did before... " I must give this book five stars"...

Excellent wisdom, practical advice and humor, even on the fifth reading!
