Customer Reviews

This just saved my writing! I'm not fond of writing action scenes and it was showing in my new book I'm writing. When an author starts to hate a book & their characters because they have reached their limits trying to make it work well? That book is in trouble! I'm so glad I have this book & new tools to use to help me develop stronger action scenes for my books! Thank you!

I am so so sooooo grateful to have found your book! There is so much information in there and such perfectly described details that I couldn't find anywhere else. For my novel, I needed to describe a strangulation but how could I do that if I had never been strangled. The same with the beautiful disgusting descriptions of guts and gore that I needed, having not witness a gunshot or a beheading before. The weapons have been so useful, all in one place. This book is worth so much more than you charge. Thank you so much for writing it!

This is an excellent tool that I don't want other scribes to have access to. I think the bad reviews are being posted by people who are under the impression that there's a book out there that will write their book for them... Sorry that doesn't exist. You use tools like this to keep the ball rolling and it takes off from there. If you love to write, this is going to excite. Period. Five stars from a guy with a big library. Off to buy another edition. Thank you!

The perfect book for writers who want to vary their phrasing--genre writers especially. Chase has done an excellent job of coming up with terms for nearly every action one might find in a an exciting, fast-paced novel. Use this as inspiration to beef up your writing--as the author of several fantasy books, it certainly works for me!

I have been checking out this book for some time. Being a writer I knew this would add to my resources. But the price was \$20, I did not want to spend that much money. And then a shorter version came out cheaper, done deal. I get all the resources at half the cost. Yes this exceeded my expectations. Of course never let's you down.

This book has so much information, packed with nuggets. If I ever get stuck in my writing or if I'm at loss of words, I'm able to find answers and hints In the Fiction Writers Phrase book. I usually find whatever in the index, it's like an encyclopedia. Good choice of help.

I really used this a lot, even in the first thirty minutes after I bought it. Having something handy that I can flip through, even just to spark a new phrase or way of saying something, is invaluable. Thank you Chase

Good to have but a little repetitive.
