I am half Japanese and half American. I live in Japan. I was shopping at Costco with my mom. I found a whole PILE of this book and not many people were buying them. I guessed probably because they were all Japanese and they can't read English. So I grabbed one and looked inside. It had almost all the stars that I loved, so this book was a definite! I bought it. It's been very useful. It tells you what you should do to prevent stuff, and some "i-didn't-know-that!" star secrets. Buy it before it's too late!

I bought this guide without noticing it was for teens. I learned a ton about skin care and make-up despite just turning 40! It is written in a clear, concise format with a lot of tips from make-up artists. My 21 year old babysitter loved it too! I wish I had it when I was a teenager!

A lot of the advice in this book is useful but the make-up and beauty tips are a little complicated for younger teens and a lot of the information inside can be found in the regular magazines.

before u start reading this review, u should no that im 14, i just dint want 2 rite my email adress cuz they would send me a bunch of SPAM!i bought this product thinking that it would give me ideas of how to do my hair and wat the best type of makeup is the best and stuff, but all it pretty much said was the best way to do ur makeup and crap wen everybody already nows how to do there makeup! im wearing braces and there was an article in there that said "do u hate ur braces?" i bought the book cuz of that article, ubt it just told u 2 not draw2 much attention 2 them by applying lip balm 2ice a day! it was ok in some parts,the book was okay, but in others, it sucked!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!
