## Customer Reviews

In 2002, Roosh decided to change my life. He pursued relationships with women, started his own business, and traveled through South America and Europe. He has shared everything learned and experienced in his books, which have been purchased over 50,000 times worldwide.

It's very informative for many purposes. I am visiting Latvia, but not for the purpose of the book. However, what it does, not in any travel guide, explain the real culture from the standpoint of an American visitor. I probably learned more from this book than most travel guides. It's an easy read and before you realize, it's finished.

There is no one better at giving a description of a place from a perspective of meeting women. I doubt that too many who read this will travel to Latvia, but I have no doubt that if they do they will be successful at meeting the local girls so long as they do what Roosh says.

All information about Latvia is wrong! Author have poor knowledge about Latvian culture. Before you write about an alien culture, need to know it more!

as i'm from latvia,would like to say thanx from us-beautiful latvian women to this author for recomendig NOT to wisit our country for sex weekends. it will be glorious day for us- good looking women to go party without stupid coments or offers from drunk foreign men.

Roosh is nothing more then a misogynic serial rapist! He travels around the world, rapes women and writes his disgusting "books". He fights for rape becoming legal and terrorises female journalists for reporting on his crimes!

Unlike Roosh's previous book Don't Bang Denmark, which was a comedic skewering of everything about that country, Don't Bang Latvia is a more serious warning to stay away. The skinny is that

while Latvia was once a paradise of beautiful, loose women, hordes of sleazy sex tourists and annoying British stag parties over the years have turned it into an apocalyptic wasteland. The most attractive Latvian women want nothing to do with foreigners, while the middling-to-cute ones are soulless scammers hell bent on taking your money and leaving you with nothing. Don't Bang Latvia isn't as detailed as Roosh's previous travel guides, but it's still an informative read.

Anyone that finds this book interesting really should avoid Latvia at all counts. I'm not quite sure if the author is attempting to be clever or humorous, he fails on both counts so perhaps this is a serious study on how to get your rocks off in Eastern Europe. As someone who recently visited Latvia I found that women in Latvia other than being on average more intelligent than any tourist, were pretty much the same as anywhere in the first world. The key here is that the author is a troll and because of self publishing is able to put out what amount to blog posts, he hasn't done any empirical research and has no sources. I recommend looking up more information about Roosh VÃfÂ¶rek, he attracts a specific type of woman and then writes about it from the point of view of his penis, he also gives beards a bad name.
