Really nice solution for our ongoing problem of finding a quality Bible curriculum. We've used other

programs in the past, but always stop using them quickly. This is easy to implement and we don't have to spend an hour on every lesson. I think this book is best for ages 9-14.

I love how the series is set up. We use this as our homeschooling bible curriculum. We also have "how to study your bible (for kids).. It's awesome!

I purchased this for my kids and I to do. They participate in Teen Bible Quizzing and we are studying James right now. It was been a great study and very convicting.

Great book for my upper elementary and middle school kids. Perfect condition from seller.

I'm doing this with my 13 year old. We are very pleased!

This devotional is perfect for my 8 year old. I was hoping he could do it on his own, but he prefers that we do it together. I would highly recommend.

This is my favorite Bible study book for my children to use for homeschooling and to use for when we have a group study with other children. It's so easy to follow and does not imply it's own opinion on what the Bible says but allows the children to openly express what they think! I can't say enough good! It's so easy to follow and great for any age. Highly recommend if your looking for something simple to incorporate in your families life or in a group with children. Our family loves it and we'll be getting more of this series!

Sold as a GOOD book, it was pen marked on several pages. Also, penciled in on half dozen pages too.
