Nice book published around the time of my childhood. Brings me back to the days at our beach house! Wonderful coffee table book...and conversation piece.

It's a great coffee table book. The homes are a little more rustic than I was hoping for. All in all I like the book and would recommend it for a nice looking book with some interesting pictures.

I think it's just a lovely book - had to own it.

it looks good

And therein lies the beauty of this book. Yes, some of the homes are older & some are rustic-but there's the sleek & contemporary too. In other words, something for everyone who loves to live by the water (or wishes they did). Buy this book to appreciate the different ways to express loving the natural light & atmosphere in a home that is reflective of the sea. You may not get Decorating Lessons 1-100 - but that's not the point. You can escape thru this book, dream thru it, share it, admire those who have created beautiful spaces in beautiful places - without displaying every obvious "seaside" nic-nac but with much good taste & class. Buy it for those pleasures & of knowing that kind of life does exist & can be lived by those to whom it means the most. To the authors - a beautiful volume - thank you for seeking these places out & creating an arm chair trip to some incredibly beautiful spots by the water.

I received this book for my birthday last year and still enjoy looking at it. In fact, I was getting ready to order it for a friend for the holidays when I saw an earlier review of this book that also mentioned another vacation home book called *Second Home*, I bought it, too. I highly recommend both books. This is wonderful dream book, as is *Second Home*. *Second Home* also includes pointers (throughout the book) on deciding where you might want to have a second home, real estate shopping tips, and ideas on building and decorating, too. *Second Home* is as inspiring as *Family Houses by the Sea*, but it offers the bonus of being practical and talking directly to me about what I can do to actually realize my dream of having a weekend house.

This book was my inspiration for a beach house I just finished completely cosmetically rehabilitating. The book took me all the way through the process by stimulating me with the beautiful visuals of its photos. I would look through it repeatedly, looking one time at flooring, another at windows, and so on, depending on where I was in my rehab process. I can't imagine it not being a superb stimulus for anyone.

We are accumulating a wonderful little stack of books related to second homes as we plan a getaway of our own. This one is a favorite because of its dreamy photography. I also highly recommend *SECOND HOME: Finding Your Place In The Fun*, which is a new book that mixes dreamy photos of real homes with some helpful tips on finding a location as well as buying, building, remodeling, or decorating a second home. Like *Family Houses*, *Second Home* is a larger hardback

book. Gorgeous.
