Customer Reviews

This book needs quite a bit of proofreading and editing. Besides the incredible number of grammar, punctuation and spelling errors, there are pages that are mostly blank with headings on the bottom of the page instead of the top. This extremely amateurish approach to writing a book definitely affected my trust in the author's advice.

The book is very easy to read. This is my first book in the subject matter and I found it comprehensive and detailed. Great writing, stimulating encounters and this book was done before I knew it. Will look for more by this author. Recommended.

There was limited information and once my husband found some outdated/wrong information inside,

he decided to return it.

A great guide for anyone looking to move to Costa Rica, from the climate to the roads and economy. You get all the information on the different types of visas, what they are, and the documents you'll need. There's also information on property, buying, selling, transferring titles, and of course, taxes. An overall great guide with plenty to offer!

It is a very good book with good information.

Big print, not much information. I could have written it.

An interesting book but could have more detail

A wonderful guide book for everyone who wants to go and visit or even stay in Costa Rica. Very good written so everyone can understand it. Very helpful in everything about Costa Rica. I recommend it
