history of stock car racing, scoring, and overall safety One cockpit mechanic with steering wheel
One crash detail

Sally Blakemore of Arty Projects Studio, Ltd., has created and produced pop-up books for 15 years. She lives in Santa Fe.

This book has so much information and detail. I purchased it for a gift for my 11 year old nephew and I could not stop looking through it even though I don't even like Nascar! This is not your typical pop up book. I highly recommend it!

Bought for my 15 year old grand nephew. Very detailed and since I'm a pop up book fan for my younger grand children this is a perfect gift for the one who has grown up. He is a reader and will read and go over the whole thing. Good Christmas gift.

Wonderful pop up book - however, this is not a book for young children. The pop ups themselves are complex and fairly fragile. Additionally, there is a substantial amount of very small written text that require the reader to turn the book in several directions to read each. For Nascar fans this is a wonderful book, as the amount of detail is amazing and offers a wide variety of interesting facts about this sport.

I purchsed this for my neice and she loved it!!! She works for a marketing group where NASCAR is her client.

NASCAR Pop-Up: A Guide to the Sport is illustrated by Doug Chezem and provides over 65 pop-ups and pull tabs and a 12-second sound chip to accompany a vivid history of the race car in general and NASCAR in particular. While unsuitable for a lending library, this is the perfect gift for that hard-to-shop-for NASCAR fan of any age!
