# History Of Music In Western Culture (4th Edition)

## Synopsis

Learn the History of Music, through Music. *A History of Music in Western Culture, 4/e* is based on the premise that the best way to convey the history of Western music is to focus on specific works of music. The text is structured around a carefully selected repertory of music that reflects the development of the art form throughout time. Mark Evan Bonds helps readers gain a broad understanding of the nature of music, its role in society, and the ways in which these have changed over time. *A History of Music in Western Culture* challenges students to think critically about the nature of music and its past. Once familiar with a representative body of music, students can better grasp the evolution of musical style and music's changing uses within the Western tradition. Students will have a sound basis from which to explore other musical works. This text builds its narrative around the core repertory represented in the *Anthology of Scores* and the corresponding sets of compact discs.

**Learning Goals** Upon completing this book, students will be able to:

- Grasp the evolution of musical style and music's changing uses within the Western tradition.
- Have a sound basis from which to explore other musical works.
- Gain a better understanding of the nature of music.

## Customer Reviews

“Well written, a good balance between purely musical topics and relevant extra-musical topics.”  
- Jim Davis, SUNY Fredonia  
“the chapters unfold and flow with a good pace and great clarity. The illustrations and the tables and windows animate and diversify the text greatly. The tone is definitely appropriate in its professionalism, authority, and competence.”

- Sara Waltz, University of the Pacific  
“A comprehensive history which addresses music within the social and cultural climate from which it comes.”

- Eric Wood, University of the Pacific  
“Great on features, readability and coverage. I (and my students) enjoy all the features. They really make the book come alive.”  
- Karl Hinterbichler, University of New Mexico

Mark Evan Bonds is the Cory C. Boshamer Distinguished Professor of Music at the University of North Carolina at Chapel Hill, where he has taught since 1992. He holds degrees from Duke University (BA), Christian-Albrechts-Universität Kiel (MA), and Harvard University (PhD). His publications include *Wordless Rhetoric: Musical Form and the Metaphor of the Oration* (1991), *After Beethoven: Imperatives of Symphonic Originality* (1996), and *Music as Thought: Listening to the Symphony in the Age of Beethoven* (2006). He has also published essays on the music of Haydn and Mozart and has served as editor-in-chief of *Beethoven Forum*.

Arrived in great condition as promised.

You can just buy the used version as opposed to buying the new like I did. If you are required to have the cd's that's insane because they cost WAY too much money.

just what I needed for class

Great condition! Unopened! As described! Would definitely do this transaction again, I got the entire History of Music in Western Culture set from this seller, and it all was perfect. Thanks!

awesome love it

I've actually enjoyed reading this text. Some nice side stories to go along with the times and composers. Granted I like history and I like music... So it's hard not to like it. I give it a 4 star rating because I hate paying for college textbooks. I always feel ripped off and ashamed afterwards...

the book is in great condition! Doesn't look like a used one: no words on it, no scratches, no breaks, no page losing. But lack of a CD that I really needed.... have to borrow one. Thanks for the good book!

Have been using this series or books for quite some time. The series works well together. All the books together are quite expensive. Bought used, arrived quickly, packaged in soft packaging.
