Forever Kinda Love (Lovelly Series)

Synopsis

Life's little surprises. The last thing seven-year-old Carrigan "Ace" Casper foresaw was an eight-year-old Heath Lovelly walking into her life the day her mother died. From that moment on, Heath sticks by her side, slowly becoming her strength, her confidant, and her entire world. What she doesn't know is, she's his saving grace, too. Ten years later, Ace is handed another crippling challenge that threatens everything in her almost perfect life. Only, this time, she doesn't turn to Heath, hiding the truth instead. But Heath knows Ace too well and won't back down easily. He's ready to do whatever it takes and will stay by her side until she accepts that their love is the kinda love worth fighting for. Will he be her forever triumph or her unexpected downfall? Two lives. One story. And an unexpected journey to falling in love.*This book is a standalone within the Lovelly series

DNF @ 59% I usually don't post a DNF review on [Goodreads](#) but I just had to get this off my chest. I had higher hopes that *Forever Kinda Love* would detail a young couple's journey through the years but at this point the only thing I'm seeing is two dumb-a** kids who can't get their sh-- together. Heath and Carrigan (Ace) are best friends, and have been since they were kids, which is what drew me into the story to start with. They are both developing feelings for the other person but neither wants to risk their deep friendship and take a chance on a relationship. It's the classic trope that everybody loves and usually works for me but the story stalled at the 50% mark for me. The characters are annoying at best. Heath wants Ace and chooses to find traits of her in the other girls he sleeps with, which is often. The current girl he is "dating" (A.K.A. screwing) is apparently someone his father forced him to start seeing but it has yet to be explained exactly why he was coerced into being with her. This guy got on my nerves worse than most male characters in these types of tropes. He b**ched constantly about having to even be with Lisa because he was in love with Ace but at the same time he was seen pawing all over her and shoving his tongue down her throat and bragging about screwing her all the time. When he wasn't gloating about how great they were in bed together he was ditching his "girlfriend" to go rescue Ace from whatever he perceived as a threat. Let's not forget to mention that when she started showing interest in someone else and dated that person, Heath started to freak out and act like a chauvinistic jerk who whined about it. As far as Carrigan (Ace) she was just as annoying to me as Heath was. She's having feelings for Heath but she decides to try and date someone else, another guy, Vincent, (who was pretty great in my book. He was the guy who should have been the hero in my opinion.) but can't bring herself to even kiss him out of misplaced feelings of guilt about her feelings for Heath. Wait, what? How much sense does that make? Heath is running around banging all the girls on campus and Ace has to watch him constantly fondle and dry f*** his current fling but she can't even KISS the guy she's dating???? That is what ultimately ticked me off enough to lose interest BUT I did give it a chance. I just can't stand it when one character has to sit around waiting and being all virginal while the other person gets to run around with whoever they can. It's unbalanced and absolutely unrealistic to think that a human woman is going to sit on the sidelines while her love interest is putting his disco stick in wherever it'll fit. Pssh. Not even a high school girl. I did try to give this one a fair chance and kept

reading passed the parts that made me want to scream because let's face it, these two are idiotic highschoolers and nobody has their s*** together at that age. Things started looking up when Heath finally broke things off with his current bed warmer and decided to go after Ace but I waited at least another 10% only to go through a medical scare with Ace and no answers about what caused it and Heath dragging his feet about telling her how he felt and more unimportant details about an event at their high school. It became too much. Nothing was happening for me to keep going. I wanted to like this one, I really did because another friend of mine loved it but in the end it just didn't do it for me

It would be a stretch to say that I'm disappointed in Forever Kinda Love, but also a stretch to say that I'm thrilled with it. Now let me be clear, I can enjoy a romance novel so I'm not biased against them. I started off by liking Forever Kinda Love, I thought it was really cute. Sometimes I even had to put the book down so my mind could process the cute moments. But I don't know, after a while, it wore off for me. I

didn't like the characters, but I didn't dislike them either. They were rather in-between. I'll talk about Heath first. I was falling in love with Heath when I first met him. Some of the things he does were really sweet and I liked that side of him. He had a good backstory, one that was believable, and I loved the interaction that he has with his family. I appreciated that Stone incorporated Heath's family into the story because I feel that that was one of the main reasons why the story even ended like it did. It also showed me how much Heath loves his family and leans on them for support. What I did like about Heath was certain reactions that are becoming more common. Heath was extremely prone to violence. I get it. You love Ace and you don't want any man coming in between you and her. But it was genuinely scary how Heath was always ready to punch any guy that talked to Ace. At one point, Ace talks to another guy and this is Heath's reaction: "I round the corner separating us and see her touching another guy. A growl threatens to pour out of me. I don't care if he's interested in her or not. My heart beats fiercely, trying to break free. I smash my fist into the wall beside me. Okay, hold on, what? Since when do men growl? Have any of you ever heard a man legitimately growl? If Heath doesn't care if he's interested in her or not, that means all he really cares about is that other guys talk to her which is a red flag! There's being protective and even (at an appropriate level) possessive over someone you love, but it's not cute/sweet/he just really loves me when he doesn't want you talk to any guys. That's a major warning sign. I also didn't like

how Heath reacted when Ace had a panic attack. Ace says, "After my small panic attack earlier, Heath's patience seemed to decrease. Little things irritated him, like when he tried to open a Pepsi can and the ring snapped, he shoved the whole thing in the trash. I don't know, I agree that when the ring pops off it's extremely aggravating, but I felt that Heath was overreacting. Apparently Ace has a foot fetish and that cracked me up when I read it. It wasn't much, just her thinking "Bare feet on a guy yum. but I found it hilarious for whatever reason. I didn't mind Ace too much. I felt that she was a rather real character and that Stone did a fairly good job writing her. I didn't like that she was going to use a guy for her own purposes and I'm glad that it didn't work out. There wasn't much to her, in my opinion, although she experienced a lot, but I still thought she was pretty cool. I loved Vincent, Harrington, and Rock and I would love for there to be stories about their lives. I admit that I was more interested in them than the actual main characters. There were some scenes that were more sexual than I like, but it was still appropriate. I was relieved to see that Stone didn't have them equate love to sex and immediately dive into bed together. As for the plot, it was pretty good too. I guessed the ending before I even reached the halfway mark but that didn't bother me too much although it was cliché. I wasn't impressed, but I suppose I wasn't disappointed either. If there was anything that I liked, it was that there was no "Barbie" name calling. I'm sure you've come across it at least once, where the popular girl is called a blonde bimbo or a Barbie or plastic or something along those lines. The popular girl was indeed dating the love interest, but in my opinion she wasn't completely a jerk. Towards the end I would agree that she was (a jerk), but in the beginning, she said this to Ace and it was refreshing, "You know, I'm not just being nice because of Heath. You're a great asset to our team and a really sweet girl. I don't want to lose you because you're overwhelmed. Sometimes, it's okay to ask for a little help." Would I Recommend Forever Kinda Love? I'm not sure that I would. For \$1.99, I wasn't impressed and I can't say that it was something I would want to read again. I don't want to be harsh with my words since Forever Kinda Love wasn't terrible, or at least not as terrible as it could have been, but I don't think it's worth paying that much.

I had high hopes for this book. I loved the idea of it. I really enjoyed the first few pages. The more I read, the more bad language happened, and the more raunchy it was all around. I can handle a little casual swearing if I really am loving the story but this one was over the top with the language and the raunchy mouth talk. I didn't even get half way through, even though I loved the idea of the book. I wish they had a censored version, I would love to read it. I don't think I'll be reading any more of Clara's books unless she revamps her writing. This book should Not be in the teen and young adult category, If it was a movie it would be rated R for dropping the frequent dropping off the f bomb alone.

When your 8 years old you never figured you will find your best friend in a hospital the day that tragedy struck her life. For Ace and Heath that is what happens fate brought them together and from that point on they were best friends, but when Heath released that his feelings for Ace are more than just as friends that when his life gets a litter more tricky. This is an amazing story of how fate will bring two people together and give them a hell of a ride.

I thought this book was absolutely amazing. This is a book that brings you back to when you were younger and had a crush on that one person but didn't know what to do about it. Here you have a story of 2 best friends who like one another but don't do anything about it at first because they don't want to ruin what they have. As you read the story you will see the love they have for each other blossom into a true love story only to have things get complicated when one of them gets some unexpected news that could change everything for them. Even through all they have been through in life and now they don't give up on each other
