Intersection (Alex And Cassidy Book 1)

Synopsis

FBI agent Alexis Toles is dispatched to New Rochelle, New York, to investigate threatening letters sent to Congressman Christopher Oâ™Brien, and to protect his ex-wife Cassidy and six-year-old son, Dylan. But when she gets to New Rochelle, Alex discovers that there is more to the situation than simple stalking or political agendas; she finds that she has growing romantic feelings for Cassidyâ™ and that the feelings are mutual. As Alex and Cassidy explore their budding romance, they must surmount many obstacles in explaining their relationship to those around them, including Dylan. All the while, the investigation continues, and the disturbing, convoluted, and complicated web surrounding the threats begins to unravel, placing the charactersâ™ lives in grave danger. Intersection is a taut political thriller that combines the action and suspense found in hit television shows like 24. Kirkus Reviews says, âœThe complex depictions of both Tolesâ™ and Cassidyâ™s sexualities and personalities are refreshing.â• This second edition of Intersection includes bonus material from the second novel in the Alex and Cassidy Series, Betrayal.

Customer Reviews

Someone save me from unannounced CLIFFHANGERS!!! I always feel taken advantage of when an author doesn't tell me there is a cliffhanger and I must buy the next book. Give me the choice to start the first book or move on. I really liked the plot of this book and that is the only reason I read past 10%!! Like others, this undying love after three days became unbearable to me. I was so sick of them saying "I love you", "I love you more", "Don't ever leave me.", "I'll be here forever." **repeat, ad nauseam** I skipped over it anytime I could. Please could just one of the main characters speak in complete sentences?! After all, one is an English teacher and the other is a Profiler (I think). By the time I reached 75% the words "the agent", "the teacher", and "her lover" was almost more that I could take. If "the agent" is doing something related to the job and the author wants to remind us of the change from personal to professional or the seriousness of the situation, then by all means use that descriptor. But, when "the agent" is constantly talking to "the teacher" it gets old fast. I really expected to see "the boy" talking to "the mother" next.

I try not to be overly critical, but what happened to the editor of this one? The government/suspense piece was engaging but the pacing and flow was off. Strong, but pathetic, lead characters with the classic 'know each other 2 weeks, move in, adopt the son and plan a family' bit. I applaud the first effort, but there were way too many multilingual declarations of love interspersed with (my personal favorite) 'kid talk'. I wanted to put this book down, kept checking if I was closer to the end, then read 10 pages and checked again. The ending....seriously ?? Requiring another purchase to tie up the loose ends? Sometimes I don't mind IF the book is that good, but this one NEEDED a great ending to make the 500 page journey worth it. Nothing here that good editing couldn't have fixed.

This book put me in the mind of the character Alex Cross that James Patterson has created. How refreshing to read a book in this genre that's not just a sappy romance. I loved how this was a suspenseful story about politics and the alliances and games played in D.C. So why is it only 4 stars and not 5?:::::SPOILERS AHEAD:::::I understand how two people can be drawn to each other. I understand the connection that makes people throw caution to the wind. I understand that sometimes fate brings people together. What I didn't understand was how two people fell in love in three days! The fact that they were drawn and attracted to one another - great. The fact that they wanted to explore the strange feelings - great. The fact that they called it a soul searing love after 3 days - not so great. It actually took me a while to adjust to the fact that these two virtual strangers were now proclaiming their undying love so soon. It was a major turn off!! Even though the author

kept saying the characters were astonished that they had those feelings, it still felt wrong to me. I eventually had to learn to roll with it, because it would have ruined an otherwise, very riveting story. But now that I've adjusted, I'm looking forward to part two!!!

When I saw that this was part of a 5 book series, I got excited thinking that this would be a good book to read because it should have some substance. I was wrong, not even a quarter of the way into the book and the two main characters were already professing their love. This book was very unrealistic, and while it had some good sections - it was way too drawn out and the fact that every other sentence out of their mouth was an "I love you." The affection was just too much, one week and they only thing they can't go more than two sentences without saying "I love you." The only reason I gave it a 2 star rating instead of a 1 star is because I don't hate the book - I just wouldn't invest any money in these books, even at a \$3 price.

I find it amazing that Alex and Cassidy fell in love within the first week of meeting. I know the whole U Haul lesbian saying but this is ridiculous. Also we hear of Alex's wonderful abilities and how much of a super agent she is with an incredible memory but for the entire book, she just appears to be an average agent who's lost focus because of love. I'm truly not interested in reading any more of their story in the other books of the series as some reviewers say the same thing of book 2.

The political intrigue and suspense kept me reading this book even though there was problems with the flow at times. I did enjoy the romance of Alex and Cassidy plus Dylan comes across as a real kid. However, I realize it does happen upon occasion but the meeting to be in love in three days and forming a family was unbelievable to me. Ms. Healy would have also benefited with a good editor to help tighten the story and do away with the redundant dialogue. Also maintaining the character's point of view throughout a scene was lacking. The headhopping became quite confusing at times. I also found it disquieting to come to the end of the book and realize that the unfinished plot lines would be carried on into Book 2 and now Book 3. There were also formatting issues. I read this on my kindle and my phone and the issues were present in both readers. I will be reading book 2 though as the political intrigue has me guessing. Format: Kindle

Absolutely love Nancy's characters! I have fallen hard for Alex & Cassidy's story of love! This isn't just a typical romance. It has mystery & intrigue written in also. I found this to be the beginning of an awesome series! Read this! You won't be disappointed!
