# The Obama Scandals: The 22 Worst Outrages Of The Obama Administration

## Synopsis

Don't believe the spin. Barack Obama was a machine politician from Chicago, not a post-political saint sent to deliver us from politics as usual, and his administration was riddled with scandals. As historians get busy with their hagiographies and the mainstream media mine relentlessly for supposed corruption in the Trump administration, this book lays out the evidence of the Obama administration's abuse of power. White House reporter Keith Koffler covered all eight years Barack Obama's presidency and wrote about the administration's scandals as they unfolded. From Hillary Clinton's copious wrongdoing to Fast and Furious, the IRS attack on conservatives, and the most recent revelations of the "unmasking" of Trump officials' names, the pantheon of Obama administration misdeeds is succinctly described in a book that finally sets the record straight. The Obama administration was not just incompetent. It was corrupt. Here is the proof you need when your liberal friends tell you it just isn't so.

## Customer Reviews

Revealing... Arrived timely

Enjoyable, but lacks detail

Good reminder list. Not a lot of detail.

A good read but not as much "inside" info I was looking for.

I would probably love it if the subject matter wasn't so distasteful. Koffler does a good job of presenting the facts.

Really informative not just about Obama & Clinton, but about how greedy, selfish, & uncaring our government is about the people that pay their salary. They should all be fired & clean up the government with honest hard working people in their place.

I have followed the author's blog for a long time, and respect his view of the political scene. This book tells the truth about a president who presents a persona that is totally different from who he really is. Definitely worth a read for anyone who is willing to read about the realities of the White House. Thanks Mr. Koffler.

Most of us old enough to read and understand this book were also old enough and aware enough to watch this mess, the "Obama Years", occur. And, while most of us caught all these scandals as they happened, it's very nice to have them listed, simply and clearly. Some of us will keep this book on hand for "ammo" when dealing with the liberal blindness which seems to be in fashion in some places these days. So, buy it, load it onto your phone so it's handy. The names and dates will be easy to reference that way. It's a keeper.
