ISO 10007:2003, Quality Management Systems - Guidelines For Configuration Management

Synopsis

ISO 10007:2003 gives guidance on the use of configuration management within an organization. It is applicable to the support of products from concept to disposal.It first outlines the responsibilities and authorities before describing the configuration management process that includes configuration management planning, configuration identification, change control, configuration status accounting and configuration audit. Since ISO 10007:2003 is a guidance document, it is not intended to be used for certification/registration purposes. This title may contain less than 24 pages of technical content.
