Braiding Rugs: A Storey Country Wisdom Bulletin A-03

Synopsis

Braided rugs are like family quilts – each strip of cloth comes from a cast-off garment and tells a story all its own. Piecing the rug together is an act of weaving family memories into a useful heirloom you'll treasure forever. Nancy Bubel covers every step of the simple process, from planning the perfect size, shape, and color scheme to cutting your cloth strips, braiding them together, and finishing off your rug.

Looks pretty east to do hope that I can do this even with bad arthritis once I get the supplays I need that is

I have wanted to learn how to do braided rugs. I was give a large box of assorted material from an elderly lady that use to sew. The material is old fashion for making anything but it would be great for making braided rugs. I can't wait to get started. This is a great book and well written and very easy to understand.

Just all right

This book is a very straightforward booklet on how to make a braided rag rug. It has hand drawn illustrations that are easy to follow. The technique is for a fine finished braided rug with a high level of craftasmanship, however, you can adjust the technique if you want to make a more casual braided rug and not worry about the details.

This book provides very basic but clear explanations about how to make a braided rug and encourages the rewarding experience of expressively creating something by hand.

I was very pleased with this short but informative booklet. The instructions are clear and simple and the illustrations are just as helpful. It is definitely the book to have if you are just starting out with rug braiding.

Excellent teaching tool!

I am very happy with the information in this book. I had done a little rug braiding on my own but just couldn't get it quite right. This book gave me the fine tuning I needed.
