This is a wonderful textbook in beginning Sociology. It lays the foundation down in easy to understand language.

This seems like it will be a good fit for our homeschool elective needs. Although not written from a Christian worldview, I haven't seen any objectionable content. It might be a little dated but will suffice. I like the way it is laid out. Very readable. Very much a textbook. Finding a teacher's manual that is affordable has been a chore but finally located one at Rainbow Resources.

I was completely satisfied with my purchase. It was exactly what I had ordered. I would definitely recommend purchasing books from this site.
