I buy these books to inspire my kids and their friends in projects. We make t-shirts, design flyers for Girl Scouts, create greeting cards, make tags for packages, especially at Christmas. This book will inspire you as it did my kids in how to tangle with quotes, sentiments, and uplifting words to decorate projects. The girls are currently working on treasure boxes (yup plain ol' cardboard boxes that are getting painted and decorated and they will save their treasures. This book helps them understand how to combine letters with inspirational Zentangle art. It has opened a new world for them to explore and I think I heard them talking about making a series of summer T-shirts with their favorite "cool" sayings. I can't wait to see how these turn out. I expect to have a porch full of girls much of the summer and that makes me happy.

What can I say... This womans collection of books have changed my life. I love all of the Zentangle books she has done. I do tend to wait for the sale price to come, but it is worth waiting for. These books would be great for christmas gift this year. :) Thank you Suzanne McNeill for wonderful set books to help the new artist in all of us. :)

This was an average Zentangle book. It had some completed designs for inspiration and a few step by step patterns. I have several books on tangling and have the same complaint about most of them. Too many blank pages or pages with "tiles" on them. This is wasted space since anyone can use a plain piece of paper to execute or practice a new pattern. Unfortunately, I feel like these blank areas are simply fillers to make the book seem bigger.

While it's not the 'basic' level, for a relative newbie it's not bad. There are some nice ideas provided and a few patterns I liked. For level 11, I felt it was a bit simplistic. But then I'm an artist (in other mediums) and so perhaps it was easier for me to move ahead quickly. If you're still growing in Zentangle experience, this book may be fine for you.

awesome set of books. daughter loves them. she likes to doodle. there are like 10-12 of these books

Like all of Suzanne McNeill Zentangle books, everything is well detailed and illustrated. I like the fact that new tangles have been included with step outs.

disappointed , was looking for more alphabet decor

Good quality, just as expected.
