Palaces Palaces are the residences of the powerful. Some, such as the elegant Royal Palace of Alderaan, capture the opulence of royalty. Other palaces, like Jabba the Hutt's fortress on Tatooine, have a defensive design that focuses primarily on protection from attack. [View larger](#)

Smugglers Smugglers sneak all sorts of illegal merchandise into forbidden areas for profit. Any law that stands in their way will be broken, regardless of who made it. They may sell the goods on the black market, deliver them to employers, or use the contraband themselves. [View larger](#)

Staffs Staffs provide assistance when walking long distances or over rough terrain, but some have additional uses. Chief Chirpa's feathered staff shows his authority as leader of his Ewok village. Yoda nibbles on his gimer stick as a source of nutrients. [View larger](#)

Quadnoculars The two pairs of telescopes that make up quadnoculars allow them to automatically track objects at a distance. Quadnocs, as they are called by soldiers, were first developed for field use by the Empire. They are now basic kit for First Order and Resistance fighters. [View larger](#)

This is the book you need. Every page is packed with full colored pictures and text in a well organized manner. This book is THE one to have...exciting enough for the young padawan but mature enough for the adult Jedi (and Sith Lord). I only have a couple other Star Wars books but I am most pleased to add this to my collection.

This book came in 3 days where it was expected in a week so that was pretty cool and if you are a huge Star Wars fan you will absolutely love his book! It goes into full detail with Geography, Nature, History, Culture, and Science and Technology! There's a lot of characters in this book that I didn't even know about. If you have the recent Star Wars Character Encyclopedia, it's a nice book but, they only show you 250+ characters where this one it shows over 2,500+ characters. I loved how

the writers pointed out what the character, vehicle, or planet has with them or on them to show you in depth. This book is very nice and I highly recommend it!

I bought this for my brother to use as a supplement in tabletop gaming. This is a VERY impressive compendium of creatures and characters from multiple Star Wars properties. We were both surprised by how inclusive it is.

I'm not super into the lore of Star Wars as most fans are, but this book does a fantastic job as being a visual aid to the Star Wars universe.

This book is awesome! I expected it to be a high quality book but my expectations were exceeded!

This book might not cover absolutely everything (I didn't expect it to) but it still covers a LOT of material. It manages to blend all three era's of Star Wars in a nice, clean, presentation with loads of information and pictures.

My kids loves this and has been reading it 4 or 5 times a week for months. Enough said. rrrh

I'm a big Star Wars fan so I love this Encyclopedia. It shows and explains everything about Star Wars
