Customer Reviews

"The guides for intelligent, independently-minded souls of any age or budget." Indie Traveller "If 'the essence of real travel' is what you have been secretly yearning for all these years, then Footprint are the guides for you." Under 26"

I am a big fan of Footprint guidebooks and have used them in many countries over the years. I bought this for an upcoming trip to Laos and Cambodia. It seems targeted to budget tourists who want to carry only one guidebook and hit the high points of each country. The hotels reviewed are "B" or lower and 3 countries plus Bangkok (which isn't mentioned in the title) are covered in under 400 pages. Another big difference between this and other Footprint guides is that it doesn't mark selected hotels "recommended" or "highly recommended" - one of the many reasons I buy them. If you are the target audience of this guidebook, grab it. Otherwise, buy books for the individual countries.
