Cleopatra Motzel, also known as Feivelyn, is a well-known artist who specializes in all aspects of knotwork design, from the Celtic knotwork of the British Isles, to that of Germanic and Norse tradition. She lives in Germany.

Pictures are lovely. But, they are printed on both sides so marker bleeds right through and ruins the picture printed on the back of that page. So very disappointing.

Have a number of coloring books, but this is my favorite by far! Many opportunities to be more

creative through color choices within each design. Very contemplative, like mazes. I have two, because I don't want to sacrifice any of the pages by doing them back to back. They make great background designs for my I phone.

designs are heavily inked and not what I was expecting as some designs cover two pages and print is on both sides of pages, making it difficult to tear out a design to color without disrupting another illustration

This is a beautiful book full of Celtic designs. The pages are double sided and some of the images do merge into the binding. However, the paper is pretty decent and stands up well to pencils and gel ink pens. The line weight is fairly thick and black and the images are quite nice and varied.

For my son for Christmas. He LOVES it. He has ADD so these books are a challenge for him, but he is really enjoying the creativity of color selection and following the patterns.

The pictures were back to back and could not use a marker on them. Plus there were some that would be one picture on two pages, making it difficult to color properly.

Really fun to color. Great design inspiration.

very nice
