## Customer Reviews

Don't believe the reader from Palmyra. This book is great. I made the pumpkin on the cover (my kids helped bend the solder) and several others in the book. They all got rave reviews at our halloween party. The crafts are unusual, but not difficult, the recipes are good and the book's presentation of all the crafts is top-notch. I own over 25 Halloween craft books and this is one of the first I'll reach for each year. I can't wait to ready the new book in this series "Halloween Fun".

we just love halloween and we like this book cause it has some very cool things to make and we like to add different things each year. plus it is a very fun way to get the whole family involved and have some fun and grow stronger. thanks

This book was a total disappointment . I expected creative adult halloween ideas--things I would want to keep year after year. There were only 2 projects I found interesting-the halloween tree trims & the silver swirl pumpkin(the cover pumpkin) However, if you are looking for very simple ideas geared towards little children---this book may be what you are looking for. The best thing I can say about this book is it only cost me 1.49.

I have 2 or 3 books from BHG in my Halloween library, and I doubt there will ever be another one added, unless it's a gift. There's nothing more frustrating to me than buying a book and finding that I've seen half of the ideas before in other publications. A close second is finding that I've paid for a book that has nothing in it I can use.

I don't actually own this book, but I rent it from the library every time I go! (I'm gonna just buy my own.) It has tons of wonderful ideas and crafts to make. Step by step instructions and full color illustrations really make this book great. The ideas are very creative and exciting. I can't wait to try out these ideas next Halloween!

I found not a single usable idea in this book. The ideas are decidedly unimaginative and the results quite ugly. A friend bought this for me at a bargain shop without looking inside--thank goodness she spent only \$2 for it. Even that was a waste.

This book contains a few good ideas, but none that I would use. Best used for decorating your house for a pre-schooler's Halloween party. More CUTE than scary. Contains nice color photos and easy directions.

If you enjoy this holiday as much as I do you will like this book as much as I do. There are some very new and exciting ideas in this book. It certainly puts a new twist on things. There are so many ways to expand on the ideas presented. You will have hours of fun going through this book and creating these wonderful delights.
